## Are You a StarSeed?

A **StarSeed** is an Old Soul with deep spiritual wisdom that have been lying dormant. Having arised from other solar systems and star constellations, they have had many incarnations in other star systems -- incarnating on earth at various times. The children of these StarSeeds -- the **Indigo, Crystal** and **Rainbow** have incarnated fewer times. They are also StarSeeds but not necessarily new souls. They've typically had just not been on Earth as many times. At some point the StarSeeds chose to incarnate on earth to share their light, knowledge and participate in the Planet's evolution to fulfill a divine mission and bring positive change to the world.

## Which StarSeed Are You?

Some famous StarSeed variants are Pleiadian, Sirian, Arcturian, Andromedan, Orion, Indigo, Crystal and Rainbow Children, Lightworker, Lemurian, Atlantean, Maldek, Feline, Lyran, **Blue Ray**, Venusian, Reptilian, and Draconian. Each of these stars evokes specific traits and personalities. **So, if you want to figure out which StarSeed you are, it's best to study them carefully.**

## Cathy Harris is a Blue Ray StarSeed (aka "The Black Sheeps")

Dolores Cannon' popular book "The Three Waves of Volunteers" did not discuss that there were actually also a **fourth wave of volunteers** that came in before the three waves. **They were called the 'Blue Ray StarSeeds'.**

**Blue Rays the Soul Activators:** The Blue Rays are beautiful StarSeeds who are known as the ones that can turn **DARK ENERGY** into **LIGHT**. They came on earth like most StarSeeds to help the earth ascend into

the 5<sup>th</sup> Dimension. They are highly sensitive, empathic and spiritual advanced beings from the blue light ray. They are mystical, unique and the most misunderstood of all StarSeeds. They are very advanced transmuters of energy. One of their purposes here is to transmute the dense dark energy of the planet to assist in the awakening of humanity. They can go much deeper subconsciously than most. The Blue Rays are soul activators and awakens. They are the code carriers and they are here at this time to bring in embodied light codes and activations. Many of us are being activated as the Light floods the planet and the frequency rises.

**Blue Rays Early Life:** Most Blue Rays arrived in the 1950s and 1975. They feel they have a mission but many are not sure what it was and that could cause fluctuation. Many Blue Rays may think their entire lives have been pure, unadulterated hell because of the families they grew up in. They may have been very quiet and reserved. They felt they did not fit in. They felt very disempowered growing up. Many experienced bullying, even from family members, so they couldn't step into their power. They could not take the lead earlier in their lives because many grew up in dark families and many were the **#BlackSheeps**.

**Blue Rays Origins:** Blue Ray StarSeeds are the True Empaths, StarSeed Children, and Old Souls amongst us, and many refer to them as the '**Alchemists**' or '**Transformers**'. They are fully dedicated to transforming the '**broken**' or '**damaged**' into works of art, innovation and beauty. The Blue Ray StarSeeds were born into a family with a lot of trauma, mental abuse, addictions or a history of narcissism. The reason they were born into these families are to help clear out darkness from ancestral lineages. The Blue Rays can transmute the darkness a majority of humans are afraid of. They are the feelers and harmonizers in our society, more so than any other StarSeed type.

**How The Blue Rays Differ from Other StarSeeds:** Unlike other StarSeeds, the Blue Rays are not from a particular light system, galaxy or planet. Their energy is wholly pure and can travel though many different dimensions and time space realities. Blue Rays can travel through StarGates an Portals so they are the intergalactic travelers of the StarSeed races. They do not belong to just one StarSeed group. They have experienced many of them. They are often seen as

rebellious or the 'Black Sheeps'. The Blue Rays can be a mix of many StarSeed types such a Pleiadian, Sirian, Orion, Andromedan, Arcturian and Lyran. They have had lifetimes on Lemura, in Egypt and in Atlantis. They rarely call one place home as the entirety of the universe is their home.

### **Blue Rays are the Long Forgotten Lightworkers:**

The Blue Rays are light bearers shining a bright light in this time of global transition. They come to assist, touch and heal many people. Many believe the Blue Rays are the long forgotten, original 'Lightworkers'. For hundreds of years, Blue Rays have been the guiding light for other StarSeed beings to incarnate on Earth and beyond. They have been fundamental in shifting humanity level of consciousness and vibration so that other beings could emerge and bring their much needed spiritual gifts to light. Blue Rays are very intuitive, very psychic, and very empathic and can really pick up on what is around them. They are here to transmute dense difficult and challenging energies. They feel the feelings of others even when they don't try. They can spot toxic energy a mile away and they can transmute energy without knowing it.

They don't have to do much to trigger others because of the amount of light the Blue Ray consciousness is emanating to their environment. They attract abusers because of the way the Blue Rays energy field is configured. The purpose of their energy field is to transmute the darkest layers of reality so they are naturally drawn to suffering for the same reasons the Indigos are naturally drawn to exposing the underbelly of the matrix. It is their soul's purpose so that is what their energy fields are designed for. They are very empathic so they kind of feel themselves into situations. This is because they are here to merge auric bodies with others and share the Christ consciousness blueprint.

**Blue Rays Bring in Wisdom:** The Blue Rays have been coming to earth for thousands of years. They have been active in this reality since the bygone ages of the Atlantean civilization or even before that. They are the ones that have brought wisdom through the ages. They are fascinated with wisdom and knowledge and never want to stop learning. They have access to very high knowledge that can be activated at any point. They deeply connect

with ancient esoteric knowledge. They are here to heal, expose the truth and teach while they inspire others. They are here to remember who they are.

### **Blue Rays Have Water and Earth in Their Charts:**

They have a lot of water and earth in their charts. They love being around water in rivers, lakes and oceans. They need to take more 'self-care' so they take long baths and enjoy saunas, steam rooms and hottubs and they know there is healing in being in and around water.

**Blue Rays Have Sensitivities:** They are sensitive to noise, strong smells, toiletry products, perfumes, medicines and certain foods. They have digestive and skin issues and all sorts of physical issues -- if they don't choose to live a 'natural lifestyle.'

### **Blue Rays Are Outspoken Against Injustice:**

The StarSeed children and others aren't coming here to suffer. The Blue Rays shouldered that burden for them, so therefore, animals and children are very drawn to the Blue Rays. The Blue Rays feel very strongly about injustice and what is going on in the world so many are outspoken against injustice especially as young adults. As an older adult they might have become more reserved and prefer working behind the scenes, so they more than likely conceal their true selves. They very much want to help so service is important. They want to fix people so when they see people unhappy, they want to fix them. They might struggle with having boundaries but are good at holding space for others. They are very good with words and they have very gentle energy. They are very loyal and courageous. They have no judgment so there is a great deal of respect for others.

### **Blue Rays' Protection Auras:**

They resonate with the color blue, sometimes maybe violet or purple, and they align with **ArchAngel Michael** and has him as a 'Spirit Guide', who has a blue aura and is all about protection. They have a lot of indigo blue in their aura but they are not a bigger warrior as the Indigos, so many refer to Blue Rays as Indigo hybrids. They attract a lot of souls in your aura so when they attend gatherings, they might have to clear their energy often by doing rituals and ceremonies, grounding, sunbathing, meditations, etc. and they need to spend more time by themselves.
