There Is No Hell - Earth is Hell

Earth is unlike any other planet. It is very dense. Most people, especially churchgoers, are praying to go to heaven while living in hell on Earth. Churches are in place for one reason – to **#FearMonger** – to keep you in a **“State of Fear.”** They threaten you and tell you -- you are going to hell, but according to Dolores Cannon, there is **NO HELL** after you die so even the evil ones get another chance to be reincarnated and many of you have led evil lives too. Other planets are fun to live on, but **#PlanetEarth** is **“hell”**. **Earth is hell because this is where people hate each other.** Earth is a school. You can't skip a grade. On Earth, you learn emotions and limitations and it is not taught on other planets. If you say you did not learn anything you will have to come back but you won't be able to remember.

This is The Last Reincarnation

According to Ismael Perez, we know that this will be the last reincarnation (unless you stay on a 5D Earth), and the body you have now you will be taking with you to the 4th and 5th dimension after the **Ascension Process** and the **Solar Flash**. But the evil ones – the ones who pushed the COVID vaccines, the prisoners who haven't reformed, and others still deep into the evilness, will be left on a 'low-vibrational' **3-D Earth**. He also said that those that we have lost in the past 10 to 15 years are already waiting for us in the 5th Dimension. However, they won't be in the same body, and some might even be the opposite sex. The only time you will get to greet them is at the pearly gates after you cross over.

Near Death Experiences (NDEs)

Two (2) of my favorite **Near Death Experiences (NDEs)** shows on YouTube are **“Next Level Soul”** and the **“JeffMara Podcast.”** If you are **afraid of dying**, my advice is you need to listen to some of these **Near-Death Experiences (NDEs)** testimonials. What really amazes me is that many people have had 2 or 3 **Near Death Experiences (NDEs)** and they went on to write books and create thriving careers out of what happened to them. These are personal and deeply transformative experiences that patients can experience when they are in a medical crisis or close to death.

Patients sometimes report the feeling of leaving their bodies, then hovering above watching themselves then they go through a tunnel with a light at the end. They never made it to the light because they were greeted by Jesus or a family member, before having a **LIFE REVIEW** where they were asked if they wanted to return to their bodies. During their **LIFE REVIEW**, they were shown every single time that they hurt others. The experiences were so positive for many that they did not want to return to their bodies but in the end, they chose to go back to their bodies.

I never read this book by Ana Christina but when I heard her story on **“Next Level Soul,”** I had to seek out her material. I can't wait to read the book. She said her biggest mistake was putting her husband whom she knew years earlier in life and was in love with on a large insurance policy. She told her story about how her husband poisoned her and slept beside her then woke up to rape her and then try to drag her to the bathtub to drown her. However, the only thing that saved her was she was too heavy. The poison kept her from moving, but she was aware of everything that was happening around her the entire time, and she spent the night viewing her **LIFE REVIEW**.

Her husband then proceeded to strangle her as she went to heaven, saw her Father, Mother, and Sister, and was asked if she wanted to return. She chose to come back and finally woke up and ran into her 8-year-old daughter's room naked and screaming when the police were called. They took her to the hospital, but they refused to believe her. They thought she was just

another hysterical woman, so they proceeded to take her eight (8) year old child away from her. However, the way that she proved everything was when they tested her, they found proof that she had poison in her system. Therefore, she got her child back and was able to divorce her husband, but he never went to jail. The moral of the story is to be careful who you put on your life insurance policy and how much life insurance you get.

Where Do You Go When You Die?

According to Dolores Cannon, many things we will never know when we are alive no matter how much research we do but once you die, you will find out everything. When you die, you move toward a light, and you are met with people you know.

There are **three (3) places** you can go to after you crossover. You go where your vibrations and frequency exist:

-Lower Astral. There is a lower Astral. Those are the ones we consider Earthbound and negative -- the murderers, drug addicts, alcoholics, etc. When they die, they don't know they are dead. They try to hang around people but after a while they get bored. They are always nervous with great love. They must go to school so they can come back.

-Middle Astral: In this Astral, churches call this 'Heaven'. It might be a beautiful lake, a beautiful house, and the colors are so vibrant, especially the flowers. You can go and live with relatives, but it doesn't last. There is eventually a knock at the door, and you will be asked if you are ready to go to the 'Review Board' for their **LIFE REVIEW**. Then you will meet the Elders and Masters and they will have every word you ever said.

-Upper Astral: Upper Astral is where the schools are and the 'Temple of Wisdom.' It is complex and composed of many different parts. One is a Healing Center. You can also go there in dreams or in meditations. They take the person into a dome-shaped room. It takes away any residue so you can go to where you want to go. Another part is a tapestry room. Tapestry is very important. It is huge and it goes for miles. It is a fabric, but it is almost like it is alive. Each

thread has a story of your life. Everyone affects each other. We are all trying to learn something. They also have a library. It is a Guardian of the library – Earth mysteries. Atlantis is all in the library. You can see it as books or energy. The Akashic Records are there. There are rooms next to it and whatever you want to know about they will show it to you. The other places are schools. You go to the place you vibrate at. In schools, you can learn all the things you possibly want. Over there it is like a book reading but it is not a hands-on experience.

Everyone Makes a 'Soul Contract'

A **soul contract** is a **spiritual agreement** made before birth, believed to influence the trajectory of our lives. It's a pact between your soul and others in your '**soul family**,' or '**soul tribe**' to meet in your Earthly life, to aid mutual growth, and to learn life lessons. Some members of your biological family can also be part of your '**soul family**'.

Remember.
You picked it all, your planet, country, name, birthday, avatar, level of difficulty, etc. It was all you all along.

This is why we choose to come back. We make contracts. There is no one sitting on a throne punishing you or judging you. You see the people you have hurt. You judge yourself. You make your contract, and you are ready to come back, even though it is extremely beautiful over there. Sometimes they give you

2 or 3 different scenarios of what you want to do. They can't tell you what to do but they can advise you. Do as much as you can as good as you can. You come in with a nice little plan, but you won't remember it. This is a planet of FREE will so you will come in with a plan, but you can't remember your plan. You have to start all over again. Babies have to go through their first years of talking and walking and they sleep all the time because they are getting instructions from the other side. **As part of the contract, you have to have an exit plan.** You can stay longer if you want. You can go out in groups or even come in with groups. **You just need to understand that you have put everything into your life.**
