The Black Sheep Child Had Guardian Angels and Spirit Guides Around Her

After my retirement in 2005, I created my own **Empowerment and Publishing Company** and named it **AngelsPress.com**. Somehow, I always knew there were Angels around me, but did not understand everything until this very moment.

My upbringing was rough, but I can seriously look back now and say I had a beautiful upbringing and childhood. As a **Black Sheep child**, I now know I was speaking to my **Guardian Angels and Spirit Guides** way before they introduced themselves to me years later. I came from humble beginnings and was raised in rural Georgia with 8 siblings on a farm. Everything we ate came from the land, so I feel quite fortunate to have had this type of upbringing. My father was a functional alcoholic, but he provided for the

family. After my mom raised her children, she kept homes for others.

During my childhood, I had a **sacred place** in the woods where I would go often. It wasn't that far from my home because I could still hear my three (3) younger brothers playing in the distance. In my **sacred space**, I would talk to the sky, the trees, and nature, and at that time I had no idea that I was probably speaking to my **Angels and Spirit Guides** who helped me get through this rough period in my life. They constantly spoke to me and told me that childhood was such a **SHORT PERIOD** in my life and that I should not allow anything that happened to me during that time to upset me because I would go on to live a beautiful life. And that I have...

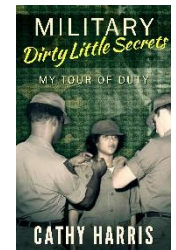

Not only did I sit in nature and speak to my **Angels and Spirit Guides**, I was also activating my "**Pineal Gland**" or "**Third Eye**" and staying grounded, when I was constantly sungazing, hugging trees, and walking barefoot in nature. All of this is probably why I grew up

remembering some of my past lives. Also, the **Andromedan StarSeeds**, which I believe I am, have some of their past life remembrances. And because they are **high vibrational beings**, they had trouble reincarnating down on a 3D earth. Many **Andromedan StarSeeds** defy authority and that is why I was a **Whistleblower** (www.TheCathyHarrisStory.com). They love being in nature, and many are "**Nomads**" -- just like me. Later I found out I was mixed with **Andromedan** but is actually a **Blue Ray StarSeed** and **Indigo Hybrid**. Blue Rays were the **Black Sheeps** and Indigos were the **Warriors**.

We Chose Our Own Lives

I chose to have a hard life. Before we are born, we sign a contract and we choose our parents, siblings, and how hard we want our lives to be. Have you ever heard

the statement “I came through my parents, but I am not of my parents?” I don’t look like anyone in my family, and I often wondered if I was adopted. If you grew up looking up at the sky and wanting to go home, this is because you are a #StarSeed from many galaxies away.

♥♥♥♥♥
We are Warriors, and we came to change the world. 🌟

My life was hard as a “**Black Sheep**” child. I don’t remember one time in my life when I wasn’t fighting, however, I still always found serenity and peace around me especially when I needed it. As I grew up, I fought often with my siblings, especially two sisters, and because I was the youngest daughter, I never prevailed in any of the fights until I grew taller than them. It was at that moment that they realized they would never have power over me again.

After my childhood, I joined the Military where I was constantly harassed by ‘high-ranking’ men, Sergeants, and Officers, who tried to **break my spirit**. Then came the Federal Government and more harassment from men who constantly called me ‘**Militant**’ and ‘**Uppity**’, just because I refused to bow down to them. I was a **NEW BREED** of **WARRIOR**, and my upbringing as a #BlackSheep had prepared me for the world.

Your Guardian Angels and Spirit Guides Watches Over You

Dolores Cannon studied ETs for many, many years but she said she never saw an ET simply because she did not want to. So, understand that your Guardian Angels, Spirit Guides, or ETs, won’t just make a sudden appearance in your room especially if they know it will scare the heck out of you. Not all Spiritualists will hear voices, but some will. Most don’t want to hear voices because it would scare them, so your Guardian Angels and Spirit Guides know that about you and they are there to protect you. Google.com and YouTube are filled with topics on how to connect with your **Guardian Angels** and **Spirit Guides**, who are always around you. Your

Guardian Angels and **Spirit Guides** have been with you since you were born, and they will be with you to help you crossover. Also, understand that many of you have been **Spirit Guides** in other lifetimes too.

“Lia” is One of My Spirit Guides

I remember when my Spirit Guide first spoke to me and told me her name was “**Lia.**” When I lived in Atlanta at about 8:00 a.m. one Saturday morning, when I was waking up out of a deep sleep, I heard a voice say “**Hello.**” It sounded like a **computer voice** because when **Spirit Guides** reach out to you it can sound like a **computer voice** because they are many dimensions away. Any other time this would have scared the heck out of me but my youngest daughter, a **2nd Waiver Old Soul StarSeed** happened to be in town visiting me that weekend. She said I was her son in another lifetime and her sister was her mother. So, we often switch roles with each other as we are reincarnated again.

Once I was fully awoken, I told her what happened, and she said awesome. Then she asked me if it was a man or a woman. I said I could not tell. Then she told me to ask if they are a man or woman and what is their name. You see how my Spirit Guide decided to come through and talk to me at that particular time because she knew my daughter was there and again -- it is not their intention to scare anyone.

So, over the next few days, I kept asking are you are a man or a woman and what is your name. Well, exactly two weeks later at the **EXACT SAME TIME**, 8:00 a.m. on a Saturday morning, as I was waking up out of a deep sleep, I heard the word “**Lia.**” So, my Spirit Guide had told me her name was “**Lia**” so that was my **first contact** with the spirit world. This was a few years before I moved to Austin, TX, and started studying Spirituality. Had I just paid more attention at that time, I would be so much further in my **Spiritual journey**. Every time I thought about Lia after that, her name would pop up on TV, on social media, or even in books that I was reading. Sometimes her name appeared on the same line as my name, Harris, in books and sometimes it was spelled **Lia, Liah, Lea, and Leah**. After that experience, I felt quite comfortable knowing that I wasn’t alone in this universe. Now I receive messages from my Spirit Guides when I see numbers in sequence, so they are always nudging me to take action in my life.
