Artificial Intelligence (A.I.) is the Real Enemy, #AIMenace

The following was transcribed by me from a speech at an event by Ismael Perez. I believe he quoted excerpts from his book “**Our Cosmic Origin**” so buy his book. Ismael says he is a **Galactic Ambassador** and **infinite StarSeed**. He is teaching other StarSeeds how to break free of the matrix. He said we are the ground crew representing the ‘**Emerald Order**’ from a different universe to protect this Earth. **We, Planet Earth, are the most important planet in the multiverse.** This is not a war against our Reptilian Brothen, but Artificial Intelligence (AI) is actually the menace we are fighting against in the multiverse. There is a **Negative Alien Agenda (NAA)** and we are fighting about 7 different Artificial Intelligences (AIs), which is a secret group that operates within the NSA.

We Are The Chosen Race

According to Ismael, we are ending all the cycles and we, **#PlanetEarth**, are in the hub so it turns out what happens here will ultimately determine what happens in the cosmos. We are not only the center of attention, but we are receiving help from many ETs and other higher dimensional beings. We are connected to them.

We have Galactic avatars in other dimensions, realities, and timelines. There are different versions of us, and many are operating on Motherships. Only a fraction is needed to operate here. When we were reincarnated, we lost connections to our real selves and timelines, so we do have other selves.

We are the CHOSEN RACE selected to take on A.I. We are part of the **12th creation**. It has been 11 creations before us. In the **12th creation** everything is 12 -- such as **12 signs of the zodiac, 12 constellations, 12 DNAs, and 12 chakras.**

The Creations were:

- 1st - Christ, Buddha, which was filled with love.
- 2nd - Only women existed in this creation.
- 3rd - Only men existed in this creation.
- 4th - This creation was the beginning of harmony.
- 5th - Everyone was telepathic, so it was the great silent generation.
- 6th - This was the ferries. Many of us were ferries before.
- 7th - This was the universe of mathematics.
- 8th - Mathematics came under experimentation.
- 9th - We connected to the divine, so everything was harmonious.
- 10th - Every inhabit was trying to understand what source was about so we were students of theology trying to understand God.
- 11th - In this creation, we had the **birth of technology and machinery**, and this is where everything went wrong. **It was the development of the first Artificial Intelligence (AI) system.** A chunk of it split off and ended up in internal darkness. Some believed Lucifer was over A.I. or the 11th creation. **The A.I. system went rogue and destroyed all biological and organic life forms in the old empire.** This is where totalitarianism and Satanic Reptilians were victims of Artificial Intelligence so A.I. is over the Deep State Cabal. A.I. went into other realities and universes so we have an A.I. menace.

A council was created to end the A.I. cosmic virus. They mixed the best genetics to create the alternate super race, but they knew it would take years. We are at the end of that. It began billions of years ago. They contributed their DNA to 24 races to about 12 races, which were a part of the experiment. They used white holes which are ‘**portals**’.

The Human race was a multidimensional race including Andromeda. You can trace your origin to Lyra. **They were under the control of their A.I. God so that is who we are fighting.** Lyra was very highly involved. They used a high level of consciousness. When we activate our light bodies, we are going to be able to transverse to different planes, and realities and different star systems and galaxies. That is the difference between us and the negative A.I. They depended on external technologies.

We Came from Lyra and Our DNA is Currently 'Dormant' until the #SolarFlash

Our ancestors had their own inter technologies and we have that now, but it is 'dormant'. Many Lyrans were killed in the wars. Many other Lyrans escaped to Andromeda, Pleiades, and other different parts of the galaxies. Had they not dispersed, we would not even be here right now. The planet would have been occupied by 'Reptilians'. It preserved the Galatian's human race. It began the Galactic War that lasted many years. Some joined and became totalitarian, and some were faithful. Our ancestors experienced slavery. But under the high council, and office of Christ, they created a defender of the galaxy. The race that was chosen to defend itself, was the original Anunnaki, who had 'Supernatural' powers.

A chunk of the planet survived, and the **Federation of Worlds** came after. There was a call to create alliances to band together and create a United Nation – intergalactic -- so each galaxy has its own peacekeeping vehicle. **The Federation** was infiltrated again and then the '**The Galactic Alliance**' was formed, which had a goal of service to others. **Emerald Order** was also called the "**Brotherhood of Light**". We are part of Emerald Order. We took the oath as members of the Emerald Order to help keep the peace on Earth. The Earth is currently interacting with the Galactic community so as we shift into a higher vibration and frequency we will make **FIRST CONTACT** with the Galactic community, which is already here. **There are over 60 million (benevolent beings...ETs) already here on #PlanetEarth.** We took physical and human avatars so that is how the help came about. We are going mainstream very fast. It is an exciting time.

The reason we are considered the 'hope of the universe' is within our DNA lies the "Superweapons." We will be the 'head honchos'. We will be at the center and will oversee the development of **NEW CREATIONS** so use your powers for good. We need to clear our wounds and do the shadow work and we will reach our highest power. A.I. has always been bad. We will get rid of A.I. We

won't deal with A.I. until the end of the millennial during 1000 years of peace.

There is a **Superweapon** within our DNA. **The more advanced StarSeed souls will mentor the younger souls.** They were given the "**God Source Gene**," which is the best genetics. We are all time travelers. By tapping into our Quantum field, we can move back and forth to correct everything in the future that went wrong. The activation has started, and we are going to be super powerful. We will go beyond the 5th dimension. Med Beds are being produced on the Moon and Mars. We will regenerate to what we looked like in our 30s. The Solar Flash, which is an **internal not external** event, will fully emerge us into our new 5D reality.

What are the Akashic Records?

In my last newsletter, I stated that you can go back and watch the "**Superheroes**" series to find out what type of powers we will have but you can also watch **Star Wars** (and **StarTrek**), which according to Ismael, was based on our cosmic earlier history. George Lucas, the creator of "**Star Wars**", went into the **Akashic Records** and was able to create the "**Star Wars Series.**" The **Akashic Records** is a library in the clouds containing all our past lifetimes and experiences. We have lived many lifetimes and again there are different versions of ourselves in other dimensions. Some on Earth today have even been contacted by others from other dimensions. When we were reincarnated into a 3D Earth, we lost our memories. Many think it will be too much to remember past lifetimes, but when we evolve into the 5D Earth, we will be able to slowly remember all our lifetimes – how we were Kings, Queens, Gods, Goddesses, and Priestesses as we gain back our powers as "**Superheroes.**"

Many can learn how to go into these records and access these files. Many **Tarot Readers** who do **Akashic Tarot Records readings** are in great demand and some have a waiting list of 6 months. I have been listening to others on YouTube who can guide you into your Akashic Records. I have been practicing going in and retrieving my records of who I was in other lifetimes. So far, I have been able to find out many of the lives that I have lived before.
