If Durov really wanted to leave France and go into hiding or safe country . He could easily do that. In the European Union it's very easy to travel from country to country without showing identification (unless you travel by boat into Sweden or Norway or Northern EU countries as Finland etc... Then you have to show passport...)
Most places in central Europe as France you just drive through the border and many many thousands of small country roads that leave the country to the next

And besides if Russia or White hats military intelligence wanted to secure Durov and bring him out of Europe they have all the means necessary! Operations and protocols<

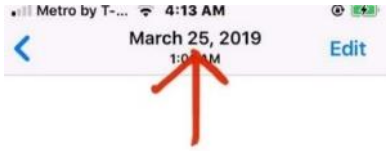
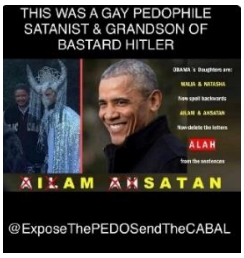
Three (3) Obama Policies That Caused the Downfall of America and Opened the Floodgates for the Medical Kidnapping of Our Children



The Obama Administration was a Crime Spree with 60% of Congress being attorneys…#ObamasLegacy



Obama's Legacy

If Trump doesn't reverse some of the decisions made during the Obama administration, then we won't have a chance to save our children. Obama and his man-wife, aka 'Michael' - came in with a dark and sinister agenda from day one. He openly bragged about killing families overseas with drones.

Three other (3) steps Obama took that changed the trajectory of this country and not for the good:

1. **Obama Brought in the Gay and LGBTQ+ Agenda:** What we had left of the family value system went out the door once Obama came into office. Obama brought in the Gay and LGBTQ+ (plus means **'Pedophile'**) agenda into schools. Obama blackmailed public schools and told them if they did not allow transgender girls (born boys) to use the same restrooms as **'natural-born'** and **'biological'** girls, he would hold back school funding.

Many doctors started operating on and butchering children and changing their sexes because of Obama. Many women and girls were raped in restrooms all over the country because of Obama's policies of allowing fully-grown men to use these restrooms with them. Legislation was introduced, especially in California, to try to make it legal for adult men to sleep with 11- and 14-year-olds. It was always about the **#PedophileAgenda**.

People started coming out of the closet lying about who they were (More at **www.DearCathy.com**). For instance, Ellen was one of the first to say she was GAY once Obama was elected, but she was actually born a man and was part of the Rockefeller family.

2. Obama Poisoned The Food Supply System: Obama poisoned the food supply system by allowing Michael Taylor, the former V.P. of Monsanto, to oversee FDA food policies. Not only did they force farmers to use GMO 'poisoned' seeds to grow foods, but FDA.gov stopped many families from using natural seeds and growing foods in their front and backyards.

-How GMOs Affected Each Group – Children, Women, Men, and Seniors
https://www.youtube.com/watch?v=7j4bhIDXtyM&t=162s

Monsanto Did This:

-DDTs: The DDTs caused 'Polio'.
-Agent Orange: All the men came back from Vietnam with cancer from Agent Orange, and many had deformed children.
-PCPs: The poisoned PCPs leaked from the chemical plant in Alabama and everyone around the plant died and up to 60 miles away many came down with bone cancer.
-Aspartame: Aspartame is in all diet sodas, so this is why there has been an EXPOSION of brain cancer.

-**Round-up Ready Weed Killer:** This poisoned insecticide is used by many homeowners, and it is also sprayed on ALL playgrounds, in ALL parks and on ALL sports fields (soccer, football, baseball, etc.).
-**Bovine Growth Hormone:** This toxic growth hormone is fed to all cattle and chickens that are fed the GMO feed.

The reason we have 8- and 10-year-olds on high blood pressure and diabetes medication thank Obama for that. The reason 50% of American men have Erectile Dysfunction (ED) by the age of 40 was because of Obama's food policies. The reason most nursing homes are full of people in their late 40s or early 50s thank Obama for that. His **New World Order (NOW)** and **One World Government** agenda worked, but Trump is reversing everything!

3. **Obama Created 'Obamacare':** **'Obamacare' will forever be remembered as one of the MOST SINISTER ACTS by a sitting President. It was created specifically to allow the medical kidnapping of children.** Over 60% of Obama's Congress were attorneys. This is why you never want to elect attorneys as **'politicians'**. Many attorneys came from Ivy League schools, so they came in with their sinister **FREE Masonry Secret Society** agenda. They created Obamacare that went after our precious children, which opened the **FLOODGATES** for Medical Kidnapping.

How Did the Child Protective Services (CPS) Become the Largest Child Trafficking Operation in the World? One word 'Obamacare'

There is a **MASS INVESTIGATION** into the **Child Protective Service (CPS)** at this time. I have no idea what they will replace it with, but I do know they will replace it with something better than what they have now. CPS wasn't a government agency, and it wasn't a 'Non-profit' company. It was a 'For-Profit' business.

'Obamacare' opened the FLOODGATES for Medical Kidnapping. Obamacare wasn't just in the U.S. It was also international. The way they were successful with stealing our precious children…

I will explain it in three (3) phases:

-NUMBER ONE – They Took Away Hippa Laws and Put All Medical Records Online in Computers: First, they took away **HIPAA Laws** or 'Medical confidentially laws' and put all medical records in three (3) large computers at the University of Austin. Then, they gave CPS workers and child traffickers access to the records.

Never Forget: Obama Removed 500,000 Pedophiles From Background Check Database

Therefore, CPS was able to go into records searching for women or mothers who had mental stability issues. They even went after the women with **Postpartum Depression** (aka **"The Baby Blues"**), which might be a temporary mental condition after pregnancy. Once they found the women with mental issues, teams of CPS workers showed up at homes all over the country to take children. When they took one child – they took all the children.

THE CPS TEAMS were usually comprised of CPS workers, Police Officers or Sheriff's Department officers, CPS Lawyers, and CPS Judges, so 'Family Courts' in this country were some of the worst courts. Not only did they target these women, but they falsified documents and held kangaroo courts to take their children. Because the children were worth **3 million dollars** from their **Birth Certificate Bond Money**, it was all about money. They all got paid - **CPS** workers, **CPS** Police Officers/Sheriff's Department Officers, **CPS** Lawyers, and **CPS** Judges.

The CPS Lawyers wrote up entertainment and trucking contracts so children could be trafficked across state lines. The Lawyers made **$40,000 per child,** and they took at least **15 to 20 children a month** from families. So do the math and they did this for decades. If lawyers made this much, one can only wonder how much the CPS judges were making.

-NUMBER TWO - CPS Workers and Judicial Offices Were Placed in Every Major Hospital in the Country: The second step they took to remove children from their parents legally included adding CPS Workers with Judicial Offices in every major hospital. So, when your child got injured, doctors and nurses would call CPS workers on every single case, which meant they would be in your face in five minutes trying to take your child – even though

it was an accident. I am sure doctors and nurses were also on the CPS payroll. This also meant when you went out of town and left your children with their grandparents, and they were injured, again, CPS workers would be in their faces within 5 minutes attempting to take the children.

-NUMBER THREE - They Allowed Medical Tracking of Pregnant Women: The third step included tracking all pregnant women so they would know when would be the **BEST TIME** to kidnap their children. When OB doctors were inputting records on pregnant women in computers, others with sinister agendas or child traffickers were also looking at the medical info.

They knew who would carry the baby full-term or who would opt for an abortion. They knew everything about the child when he or she was born. If they needed organ donations, they had all this information on your children, and they knew where they lived.

Then they looked at medical records from Pediatricians. They were looking for certain children with certain colored hair and eye color. For instance, they were looking for Caucasian boys ages 5 to 10 for sex trafficking. They were looking for dark-skinned children for adrenochrome harvesting. They were looking for pre-teens for organ harvesting and sex trafficking.

What Was HIPAA Laws: The Health Insurance Portability and Accountability Act (HIPAA) of 1996 is a federal law that established national standards to protect patient health information from being disclosed without their consent or knowledge. The law establishes three rules to protect patient health information: the Privacy Rule, the Security Rule, and the Breach Notification Rule.

-Which Families Were Probably Successful in Hanging On To Their Children: The families that were probably successful were the families that had a good support system such as the father was in the picture, along with having proactive grandparents or a proactive community.

-Which Families Probably Lost Their Children: The families that allowed CPS Workers and Police Officers to come into their homes probably ended up losing their children. **Once you allow these CPS workers and the police INSIDE OF YOUR HOME, you are actually giving them permission to take your children.** And understand when they take one child, they will take all your children.

-What Should Sheriff's Departments Have Done To Remedied Some of the Kidnapping? The Sheriff's Department was sworn in under the Constitution and they had the right to look for relatives of the children instead of the children being placed in Foster Care where they were not only abused but they were lost in the Foster Care system and ended up trafficked. So, these officers did not do their jobs.

What Happened to the Children that Were Taken Away Because of Their Parents' Drug or Alcohol Abuse? The children that were taken away because of abuse of drugs or alcohol from parents – the parents were told to go into rehab or attend classes for 18 months to two (2) years, but many of these – or just say most of these parents NEVER saw their children again. So, there were no second chances, according to CPS.

What Happened to the Children That Were Caught Playing Outside During COVID? Many neighbors called the CPS because children were playing outside during COVID, and like most of the time, they were treated as in the same scenarios above. Many children ended up being taken away from their families because of COVID.

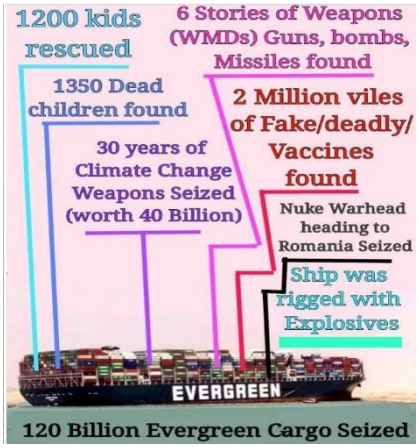
Don't Allow CPS Workers and Police Officers To Enter Your Home: AGAIN, NEVER ALLOW CPS WORKERS OR THE POLICE INTO YOUR HOME. Tell them to get a **'Warrant'.** They won't because 99% of warrants are **BOGUS**. Maritime and Admiralty Law Police Officers, Lawyers, and Judges were operating under an illegal government, the United States, Inc., which is now bankrupt, so all Warrants were 'BOGUS'. Warrants can only come from an Article 1 or Article 3 courtroom, a Constitutional Law courtroom. The warrant must have a claim, or an affidavit attached containing a raised seal, but most people don't know what to look for.

Politicians Fighting for Families in Family Courts

Nancy Schaefer who Exposed the Child Protection Services (CPS) found Shot Dead with Her Husband

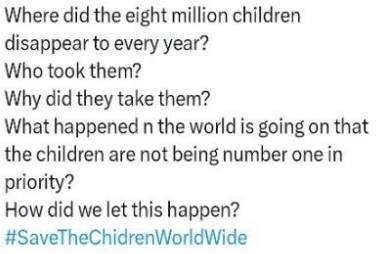
There have only been a handful of politicians that were truly in office fighting for families. Nancy Schaffer (https://en.wikipedia.org/wiki/Nancy_Schaefer), a former Georgia State Senator, took on the Family Courts and paid with her and her husband's life when they were supposedly killed by burglars. The Deep State Cabal has been killing the good for years.

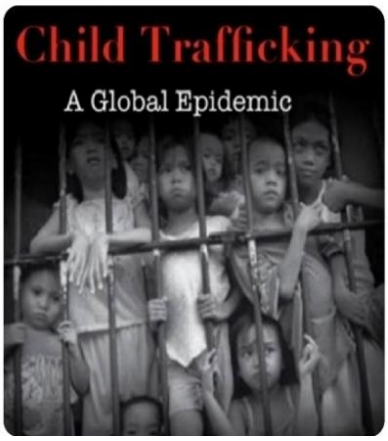
Human Trafficking is Still Very Real



I don't know why you think that Human Traffickers have gone away just because the Military and White Hat Alliance has made a ton of arrests. There is still a ton of women online discussing encounters they are now having with human traffickers who were trying to kidnap them and their children.

It is easier to kidnap people than to sell drugs because many times you can be caught with drugs. However, if these traffickers are caught with people, then they can make up a story. This is why they would rather get involved in Human Trafficking than haul around a bunch of drugs.





Many Human Trafficking scouts work at gas stations and truck stops. Women and girls are being watched from the time they exit their vehicles at gas stations or truck stops. This is why men from households need to gas up vehicles for everyone in their home, especially their wives and daughters.

If you can, try not to go into these facilities. Pump your gas and leave. However, before pumping gas check the handle to make sure nothing is attached. Truckers said there have been cases where razor blades were put on the handles.

At Walmart, grocery stores, and especially dollar tree stores, if you are being followed call family members to come and escort you home. Not only do Human Trafficking scouts work at these locations, but they will probably have someone outside who might follow you home or put a GPS device on your vehicle so start paying attention when you are out in public.

Chevron Doctrine Also Brings Down Public 'Rockefeller' Schools

Not only did the June 28, 2024, Supreme Court decision, the **"Chevron Doctrine,"** also called the **"Chevron Deference"** give cease and desist orders to 439 Federal Agencies, but the British Crown Judges and Lawyers must be retrained and sworn in under the Constitution.

Police Departments had to go under Sheriff's Departments. The Department of Education was also on the list of federal agencies that had been under an unlawful government, United States, Inc., which is now bankrupt. This means eventually, **ALL PUBLIC SCHOOLS WILL CLOSE DOWN.**

Many parents will probably choose Charter Schools, Private Schools, or Homeschooling. Charter Schools are too much like public schools. These schools are full of bullies and the teachers might also be Human Trafficking scouts so you should choose to put your child in a private school or homeschool them.

Be careful with Private Schools unless they are run by family or friends. There have also been many issues with these schools. You will have plenty of Gesara money to place your children in private schools or homeschool. Start attending homeschool conferences now. Legally, you only have to homeschool your children for two or more hours a day, so the process is probably easier than you thought.

Human Trafficking Scouts in Schools: There are human trafficker scouts everywhere, and they want to get paid. Some are young men or women in schools, or **pre-teens or teenagers**, who spend the majority of their time luring your children to go somewhere with them, and then they disappear. This is why, as parents, it is important to be 'hands-on' and know who your children are hanging out with.

Teachers Are Also Human Trafficking Scouts: Some of your teachers in public schools (aka **"Rockefeller Schools"**) are also Human Trafficking scouts. They know which children have 'hands-on' parents and which are neglected. They can look at their clothes to see who is neglected and they have conversations with these children. The neglected children will be easier to kidnap because many of these children walk to school or they are out in public places where it will be easier to kidnap them.

The Real Reason Behind the Milk Carton Missing Children and Walmart's Wall Posters of Missing Children

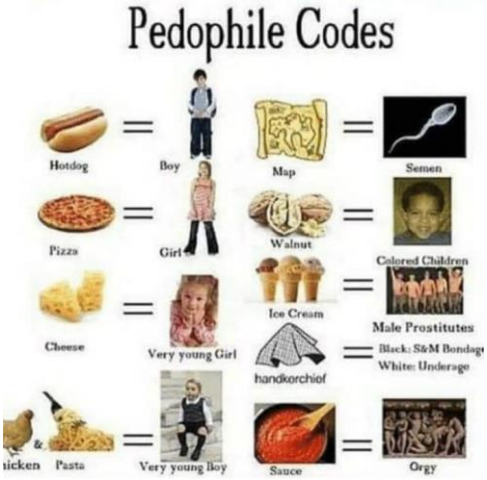
So basically, the children, which were stolen by the government and members of the Cabal, were being advertised to members of the Cabal on milk cartons. These children weren't runaways. The same happened with the wall posters of missing children at Walmarts. These children were being advertised to members of the Cabal.

Beware of Pedo Signs on Businesses and Community Signs

We all have seen the Pedophile (Pedo) signs on business signs on or next to buildings, signs in front of Shopping Centers, and Pedo signs on or within their logos.

But did you know that many of the Satanists could tell which services were offered in each area as they travel around the country by their business signs as they entered different cities?

For instance, the signs will tell them they offer -- **sex with children, adrenochrome harvesting, organ harvesting, cannibalism**, etc. It is actually on business signs when you enter cities around the country. Whether the Military or White Hat Alliance cleaned up all these locations – your guess is as good as mine. This is why we need **Neighborhood Watch Programs**, and **Community Patrols** throughout communities until we clean up communities. **There will be plenty of Humanitarian Project funds for this -- so protect the women and children in your community now!!!.**



Why You Should Keep Children Offline

Children and Online Pictures and Videos: Putting pictures of your children online is like saying – 'come and get it'. You have grown men jerking off looking at pictures of children online. Some are so obsessed that they spend the entire day doing this, so do you think your children are safe? Even schoolbook pictures turn them on.

Police Officers no longer enforce that pedophiles should not live across from public schools, so it should be your goal to find private schools or homeschool your children and keep them and their pictures offline until the world can be safe again.

Pedophiles Making Bids Online

Pedophiles are making up to $150,000 bids online for pre-teen 'virgins' – boys and girls. So, if they see your child and if they are attracted to him or her, they will send 4 or 5 grown-ups to kidnap your child. Can you fight off 4 or 5 grownups? Keep your children's pictures and videos offline until the world can be safe again.

Justice! 👉 The US Navy Judge Advocate General's Corps at Camp Blaz, Guam, convicted talk show host Stephen Colbert of treason on July 26, ending a tardy saga that began when JAG investigators arrested the vaccine-loving liberal outside his Montclair, New Jersey, home in November 2023.
https://realrawnews.com/2024/08/jag-convicts-stephen-colbert/
As reported then, JAG alleged that Colbert accepted from the NIH and CDC financial compensation for promoting the deadly COVID-19 vaccine on his titular show during the height of the Plandemic. Colbert had spent 1,750 show hours promoting vaccines and disparaging the anti-vax movement. Arresting him, however, hasn't stopped the Deep State from recreating Colbert in the aggregate, using responsive CGI, Deep Fake, and holographic technology to restart his show following a ten-day hiatus. ABC, which airs Colbert's show, claimed at the time that Colbert had suffered a ruptured appendix and was recovering in the hospital as a reason for the pause. The truth, however, was that a perfectly healthy Colbert had received an airplane ticket to JAG's mainstream media internment camp in Guam.

~T edit: We've discussed this and a few posts showed up again yesterday. He died at 88. We also discussed St Jude here. We all know cancers are easily cured. And those empty, sad tug your heart commercials the #Mockingbird runs? All money laundering.

Be Aware of 'Long-Haul' Human Trafficking Truckers Trolling Highways

In documentaries, they are exposing that over **45 long-haul truckers** are believed to be a part of **Human Trafficking rings** all over the country. Since I have been traveling in a van for five (5) years and often visit many gas stations and truck stops, here are some tips to stay safe:

-**Travel With Protection:** All women should take self-defense courses and travel with mace/pepper spray, a stun gun, and a gun and know how to use them.

-**Dress Like Men:** Females traveling alone, especially long distances, should dress like men. You want to wear a hat and trousers especially, so it will confuse other drivers looking to do you harm. They will be looking to see if you are traveling alone. They will be looking at state tags and what you look like.

-**Only Get Gas and Keep it Moving:** Get gas at the gas pump at gas stations and especially truck stops and keep it moving. Human Trafficking scouts that work inside of these gas stations, truck stops, and attached restaurants can get a good view of you when you wander off in the stores and restaurants, so limit your interaction with others at gas stations and truck stops.

-Never Stay Overnight at Gas Stations or Truck Stops If You Get Gas: Never stay overnight in a car, van, or RV at gas stations or truck stops if you get out to get gas or go inside establishments. Women and girls are often watched at these establishments when they leave their vehicles. As soon as you drive up, put up window covers or jump in the back. Get up the next morning, gas up and leave, but make sure you are not being followed.

-Beware of Establishments That Sits Far Off the Road: Never visit establishments such as hotels, zoos, or exotic establishments that sit way off the road by themselves. They have cameras so they can see who comes into their parking lots and if they are by themselves. Once inside, they can do anything to you. **#BatesMotel**

The Return of the Divine Feminine Female and Divine Masculine Male - #MommasHome

Divine Feminine Female Workshops are at www.CathysCaravan.com.

It's time for the **Divine Feminine Female** and the **Divine Masculine Male** to return home to protect their families. Speak to family members, friends, and neighbors on the below topics - the same way you speak to your children about the 'birds and bees.'

-Form Neighborhood Watch Programs or Community Patrols: Meet with neighbors and try to form neighborhood watch programs or community patrols. Make sure children who have to walk to and from schools are escorted. Make sure women who must shop after dark are escorted into establishments and safely to their vehicles. Human traffickers will place zip ties on vehicles of women traveling alone.
-**Get A Ring Camera and a Security System:** Get a ring camera and security system.
-**Look Out for Latch-Key Children:** Start looking out for latch-key children. Most communities know who these children are.
-**Talk To Your Children About Peer Pressure:** Even when children come from respectful and honest families, many make decisions based on peer pressure.
-**Be Vigilant When Out Walking or Hiking:** Be vigilant when you are out walking or hiking even if you are close to your home. Once they see you, they know where you live and can come back.
-Stay Away from Isolated Areas by Yourself: Never go to isolated areas alone. Make sure you only use populated areas for walking, hiking and being in nature.
-**Never Smell Any Products At Stores or Gas Stations:** Never smell any type of perfume or packages at gas stations or in stores. It is a knockout drug or fentanyl.
-Never Pick Up Money Off the Ground: Never pick up any money or anything off the ground even if it is $100 bills. It will contain a knock-out drug or fentanyl.
-Be Careful Removing Objects Off Your Vehicle: Even if you see money, cards, flyers, handkerchiefs, or other objects on your windshield or doorknob, only remove them wearing gloves. They probably contain some type of knockout drug or fentanyl.
-**Be Careful if You Are Followed in Stores:** If you are followed in stores, the security guard could also be involved, so having them walk you to your car might not be enough. Others might be lurking in parking lots, especially if it is after dark.
-Never Get Into a Car if There is a Van Next To It: Get someone to walk you to your car if a van is parked right next to it, but be aware that security might be involved.
-**Beware of Carts Being Put Behind Your Car Before Backing Up:** If you get in your car and someone has put a cart behind it, wait until others are around to remove it.
-Don't Use a Car Key Knob To Find Your Car: Criminals might be scouting out the area and waiting for you to use the key knob so they can meet you at your vehicle.
-Be Careful of Uber and Lyft Drivers: At one point many of these drivers, especially foreign males, were involved in human trafficking. Therefore, I would avoid them.
-Take Self-Defense Courses and Get a Gun: Everyone, especially women in your family should take self-defense courses, and have mace/pepper spray, a stun gun or a gun at all times.
