Introduction

As a **New Earth Educator, Holistic Healer, Gardener,** and **Medical Intuitive,** I am educating the public on the new Quantum Financial System (QFS) banking system, Humanitarian Projects, FREE Military Medical (#Med) Beds, Nikola Tesla 6000 Patents, and other New Earth technology, which is part of my **Humanitarian Project**, a **Mobile Education Center**. Therefore, understand that everything in this article is subject to change.

Where Did FREE Military Medical (#Med) Beds Come From?

FREE Military Medical (#Med) Beds came from **'Offworlders'**, I believe the Pleiadians, who also provided us with a new financial system, or the **Quantum Financial System (QFS).**

Who is Skye Prince?

Skye Prince is a Senior Med Bed Educator and is part of the **Military Alliance**. As far as I know, she is the **ONLY PERSON** at this time handling the rollout of the FREE Military Med Beds, the Humanitarian Projects, and Med Bed training for Humanitarians, besides, of course, the **Secret Space Force Program/Military Alliance**.

Skye Prince also has online Spiritual Counseling classes. The email for her courses is info.Camelot@proton.me. Just know that Skye Prince cannot get you or your sick relatives into a Med Bed center. You will need to keep dealing with doctors, hospitals, or natural ways of healing until the Med Bed centers are announced to the public.

Just know that they have cloned Skye Prince's channels and material many, many times. Skye Prince is on YouTube at https://www.youtube.com/@SkyePrinceofficial, but when Med Beds are released, all her links will disappear. Meanwhile, reread this article.

When Will Med Beds Be Available for the Public?

Initially, the **FREE Military Med Beds** were supposed to follow the announcement of the **RV (Reevaluation)/Gesara Announcement**, but the announcement of FREE Military Medical Beds might come first. We just have to wait and see.

There are at least 209 countries that will be using the **FREE Military Med Beds**. The Secret Space Force /Military Alliance will initially be over the Med Beds, but it is their goal to turn the Med Beds over to the **Med Bed Humanitarians**.

Med Beds treated the rescued children. Remember, many homeless people were already taken off the streets and treated by Med Beds. A large percentage of the homeless were VETERANS. We won't hear about Med Beds until their release, which is soon. Med Beds are currently located on closed-down Military bases, in some hospitals, cancer centers, and in closed-down Walmarts, amongst many, many other places.

Those with Zims, who are Humanitarians, will probably start using the Med Beds in about 8 days after the Humanitarian funding is released, then the Med Beds will be offered to other Humanitarians and their family and pets. Remember, we need to cure the Humanitarians so they can cure the world.

How Many Med Beds Will Be Available?

There are currently over **5 million Med Bed centers worldwide,** and **10,000 to 50,000 Med Bed centers** throughout the U.S., with a drive of up to 70 to 80 miles to get to a Med Bed center. The higher the population in an area, the more Med Beds will be in that city or town.

Again, if you have 5% brain capacity, then you can be saved with Med Beds. The FIRST GROUP that will be taken to Med Bed centers after the Med Bed announcement and advertisements start will be those on life support about to die (critically ill, hospice, etc.) in hospitals, private care homes, etc.

I don't know if the FIRST GROUP of patients will include emergencies also, but since they are currently treating patients -- it probably will. Many hospitals have a hospice wing. Many hospice patients are also at home. Many who are taken home from hospitals to die at home without a DNR (Do Not Resuscitate), don't last long, so they too should be included in the FIRST GROUP.

Therefore, families should pay attention to the Med Bed announcement. I would not depend on hospitals or private care homes to include my relatives. I would make sure I was around to speak up for relatives who are 'bed-bound' or 'housebound' and can't speak, especially those who need to be included in the FIRST GROUP of patients.

Once those who are critically ill or on life support are healed from the FIRST GROUP, then they will open up the Med Beds to the NEXT GROUP, which are the ones that are set to expire in a few months, or those dealing with debilitating health issues, etc.

How long you will have to wait will depend on your condition and how many people in your area want to use the Med beds. Many might just want to wait for Med Bed testimonials. Therefore, the Med Bed appointments will keep going to those in your area who want to be healed. If they don't want to heal, then it is their choice.

Meanwhile, you need to continue to elevate yourself by making efforts to heal yourself. The Med Beds are being used not to heal people physically but to teach people to take responsibility for their own lives, which elevates their consciousness. You can eliminate toxins, poisons, and parasites now and start to move into your heart space or consciousness. They want you to elevate your consciousness before using the Med Beds.

Why Was There a Need for Med Beds?

We are moving to a New Earth, therefore, there will be NEW WAYS of healing yourself. Much of the equipment used now for healing will become obsolete. There will be hand-held healing devices, such as healing wands and other healing devices, with the release of Nikola Tesla 6000 Patents. There will be UV Light Therapies, and there will be no more need for Chemo and Radiation.

Med Beds will eventually take the place of Big Pharma, Hospitals, Urgent cares, Home Healthcare, Assisted Living, Nursing Homes, Hospices, and maybe even Dentistry. Hospitals will still be around for a while (2 or 3 years) until people and their new way of thinking come around.

Once Med Bed centers are announced and opened, patients can be brought right into Med Bed centers. **If patients have 5% brain function, then they can be saved with Med Beds.** Everyone will also have a chance to get a **NEW SET OF TEETH** with Med Beds.

Can You Be Turned Down for Your Med Bed Procedure? Yes...

Understand that the Med Beds are for everyone, but yes, you can be turned down for your Med Bed procedure, especially if you have not committed to a healthcare maintenance program. Unless you are housebound or bedridden, there is NO REASON why you should not be out there trying to take care of your mind, your body, and your soul.

You can do this by gaining access to good, clean, organic food, good, clean water, taking daily supplements, getting plenty of exercise and rest, engaging in regular detoxifications, getting enough sunshine, breathing in the fresh air, and also by doing grounding procedures (walking in the dirt barefoot for at least 20 minutes every day).

Again, until you commit to working on your mental and physical body, you can be turned down for your Med Bed procedure. If you are not doing anything to stay healthy now, they will know that at your Med Bed appointments, and you might be turned down for your procedure and/or directed to attend sessions at Healing Centers for 2 to 3 months or longer.

You have to put in the work. Med Beds are not a quick overnight fix or cure for anyone, so if you are not doing the work to maintain your mental and physical well-being, you might be turned away from your Med Bed procedure — until you can prove that you have a health maintenance plan to maintain your health and body. At least show them that you are getting out for daily walks several days a week.

What is the Purpose of Medical Beds (also called #MedBeds)?

Med Beds will work wonders. Med Beds just work on an energy level — on our energy level—just perfectly in the most sensitive way so that the physical body aligns with it. This is because we are nothing but energy and vibrations. Energy can be changed with energy. It can be realigned and put correctly.

Med Beds can cure and remove every single illness, disease, disability obtained or from birth (anything physical), any virus, bad bacteria, fungus, cancer, damaged and defective DNA, inherited defect, etc. It can also heal skin from burns or acid and reconstruct anything that is deformed,

Med Beds can grow back the sexual organs of men who experienced shrinkage from prostate surgeries. And these men and other men, during their general Med Bed healing sessions, can even select a different size for their penis.

Women can have their breasts reduced or made larger with Med Beds. For women who had ‘unnecessary’ hysterectomies, where their uteruses were removed, the uterus can be returned, and they can get pregnant again. Their periods can be stopped and started again -- whenever. You can have transgender sexual organ surgeries reversed.

Med Beds will regrow any organs that were removed and/or limbs lost in war, by sickness, or by accidents. You can get your hearing back, restore your eyesight, and even change the color of your eyes. Women can change the color and length of their hair, and men can change the color and grow their hair back, so there is no reason for men to have a bald head. Everyone will receive a complete **NEW SET OF TEETH**—unless they refuse to. It is up to them.

The Med Beds will also help you reshape your body and lose weight. However, if you are 500 pounds or more, you will probably be referred to Healing Centers. The Med Beds will probably only take off 100 pounds. You have to do the inner work yourself, but you will need more than one Med Bed appointment.

If your child has autism or another brain injury (epilepsy, brain seizures, etc.) from newborn vaccinations and/or the Measles, Mumps, and Rubella (MMR) vaccinations, which many suspect causes autism, then your child (or adult) should be able to get rid of autism.

Med Beds will also be able to reverse Down syndrome and other disabilities and should be able to improve the health and functionality of many Special Needs children and adults. If a child is crippled after birth or someone ends up crippled later in life, they should be able to walk again. And these patients might have to stay at a Healing Center for 2 to 3 months, while their legs connect to their brains again.

Many hospitalized with schizophrenia are probably not crazy, especially children. They probably heard voices coming from the Spiritual world, so they are probably psychics, psychic mediums, and channelers. Therefore, instead of being thrown in psych wards, these individuals will be working with Healing Centers.

Med Beds will return your body to the optimal health that you were born with. After a **GENERAL HEALING** session, if you are 80, you should feel great for your age and maybe even feel like a 50-year-old. If you are 70, you should feel like you are around 45. And if you are 50, you should feel like you are 35. If you are 40 of course, you should feel like you are in your 20s.

Remember, Med Beds can heal **ANYTHING PHYSICAL,** and everything else, you have to work on it. Therefore, it can't get rid of addictions, such as smoking or alcohol, but there will be Healing Centers for that. However, Med Beds can and will **HEAL THE BRAIN**, which might get rid of the addiction. The Med Beds should work wonders for any debilitating PHYSICAL condition that occurred after birth.

Physical Changes That Won't Be Allowed for 1 to 2 Years

Every man, woman, and child will have a **GENERAL HEALING** Med Bed session if they choose to, but the following list of physical changes **WON'T BE ALLOWED** for up to one or two years.

These include:
-Changing Eye Color
-Changing Hair Color/Length
-Reshaping your body.
-Correcting any woman's parts.
-Increasing or decreasing your breast size.
-Increasing or decreasing your penis size.
-Downloading information (knowledge, language, etc.)

What You Should Know About Age Regressions

The New Earth and the Free Military Medical Beds will remove toxins, poisons, and parasites from our foods and environment. Therefore, aging will be slowed down in the future, which means you won't need to do Age Regressions.

You can do up to a 30-year Age Regression (so you can also do 5, 10, 15, or 20 years), but you can't go below the age of 20. Age Regressions are intended to extend your life, such as when you get in your 70s, 80s, or 90s.

You can use it two (maybe three) different times to go back 30 years, but doing it too many times might damage your brain. And understand that to do an Age Regression, you have to be conscious and totally living in a 5D World -- 24/7, which is impossible, but you will need to be considered conscious to be considered for the Age Regression Med Bed procedure.

Remember, if you do an Age Regression procedure, you will still have your old brain, and many others might wonder how you are so wise. Also, if you don't have any support and if you are a public figure or come from a big family that will question your Age Regression procedure and even demand that you tell them where you got it, again, you can be turned down for a Med Bed Age Regression — at least until people get used to the idea of Med Beds.

You will also need to undergo extensive counseling with Spiritual Counselors BEFORE and AFTER the Age Regression procedure, so they are looking for Spiritual Counselors to work in Med Bed and Healing Centers, especially those who are psychics and psychic mediums.

What Happens During Your Med Bed Body Scan?

When you arrive at Med Bed centers, they will do a **FULL BODY SCAN** on you, which should only take about 5 minutes. You can have one person waiting for you in the lobby when you have a scan. If your children are being scanned, any child under 18 will need **ONE PARENT** with them.

Your body is copied directly to an image. **Women should wear black bras and black bikini panties, and men should wear bikini underwear for privacy reasons.** You can remove these after your scan if they are uncomfortable before meeting with your Med Bed Team.

After your scan, you will meet with your Med Bed Team, which will include 3 or 4 members. You won't need to inform the Med Bed Team about any prior health issues; however, this is the time to ask any questions.

It's possible to have your Med Bed scan and Med Bed appointment on the SAME DAY, so be prepared for that. It all depends on how busy they are. However, you will need to meet with your Med Bed Team and also a Spiritual Counselor before your Med Bed appointment.

There Are 3 Types of Med Beds

Everyone (every Man, Woman, and Child) will be given a 'one-time' Med Bed **GENERAL HEALING** session, which will last for up to 20 years or longer if they have a health maintenance program. Most will only need a **one-time healing session** unless they are in an accident or come in for another procedure (e.g. Age Regression). However, everyone needs to come up with a plan to maintain their health.

-**First (1st) Med Bed:** On the first Med Bed, you will be lying on the bed with your image above you. This image is what you agreed to in your scan appointment, and it will be holographically looking back at you when you lie on the Med Bed.

There are NO drugs, NO sedatives, NO needles, and NO gases. You will feel a tingling and vibration as your entire body is being healed, and you can be completely awake. The Med Bed mattress can send signals to your brain to calm your brain, especially if you are claustrophobic. It also might mean you go into a light sleep, especially children and Seniors.

-Second (2nd) Med Bed: On the second Med Bed, there is this curved beam that goes over the bed up and down your body. It is a full circular beam that does what it is supposed to do. Again, if you are anxious, the bed will calm your mind. You will still feel vibrations — almost like a gentle tickle.

-Third (3rd) Med Bed: The third Med Bed is the Age Regression bed, which is like an encapsulated egg shape, and you lie in the egg. From the top of the bed to the floor, the Med Bed is completely covered. The bottom half is completely covered in. The top of the bed to the middle section is a see-through glass.

This bed does everything the other two do, but this one is specific to Age Regression. The other two beds won't be doing Age Regressions. If you are having an Age Regression procedure, a limb regrown, a kidney regrown, diabetes disappeared, a heart valve repaired, a hip replacement regrown, etc. This bed does all of this.

How Long Does a Med Bed Procedure Take?

I believe a GENERAL HEALING SESSION is around 5 minutes. For a full set of new teeth, it takes 3 to 5 minutes, depending on other procedures. Age Regression is 3 to 5 hours (it was 15 hours with the old Med Bed technology), depending on what else you are doing.

It depends on the person. Someone much older with lots of health issues, who also wants an Age Regression, might be there for 6 hours. It depends on each person and their condition.

Will You Be Put To Sleep During Your Med Bed Treatment?

In all three Med Beds, you can remain awake, but it depends on the procedure you are having. The more detailed, critical, or lengthy the procedure is, the more you need to sleep. If you are having a general healing session, you can stay awake, or you might be put in a light sleep if you are anxious or have claustrophobia, especially children or Seniors.

If you have an Age Regression or a limb regrown, then the bed will put you into a light sleep. It depends on the procedure and your anxiety level. Children and the elderly will probably need to be put into a light sleep.

What Will Happen After Your Med Bed Treatment?

You will be free to leave after your Med Bed appointment, so you can bring one person who can wait for you in the lobby if you don't want to drive right away. There will be clothes, gowns, and replicators there after your Med Bed appointment. Everyone will be given 3 sets of clothing after their Med Bed appointments.

If you went through a longer procedure, such as having a limb regrown, then your brain needs to catch up with your body. Therefore, you will be transferred to a Healing Center, where your treatment could last anywhere from 2 to 3 months, so prepare now. Have someone to take care of your housing or any animals.

Others might need to stay at a Healing Center for a day or two, especially Seniors, so bring an overnight bag. It's possible for Med Beds to help with any type of addiction issue; otherwise, you will be sent to Healing Centers after your Med Bed treatment. There will be barbers, hair stylists, nail techs, Spiritual counselors, replicators, etc., to help you get acquainted with your new look and energy at Healing Centers.

Applying for Med Bed and Other Humanitarian Projects

-If the RV Goes First: If the RV (Gesara Announcement) goes before the Med Beds, make sure you turn in your paperwork for a Med Bed or another Humanitarian Project at the LAST STATION at your Redemption Center appointment. Be prepared to give a 5-to-10-minute presentation.

There should be others (Military Alliance Members) to assist you with your Humanitarian Project if you are approved, so make sure you get a business card with contact numbers. If the RV goes first, three (3) ways to set up your Humanitarian Med Bed appointment include:
-They will give you a phone number to call to set up your appointment.
-They will give you a form letter with info that needs to be filled out.
-Or they will give you a website to fill out the information for your appointment.

-If the Med Beds Go First: If Med Beds go before the RV, do the following. If an **800 number** or **website** is released for **FREE Military Med Beds,** tell them you are a Med Bed or another Humanitarian, and they will try to put you at the front of the line.

Don't lie about this because when you get into the Med Bed Center, and they see that you have lied, you might have to go to the back of the line to use Med Beds, or they might revoke your Med Bed privileges altogether. We are moving into an honor society, so lying won't be tolerated. However, those needing immediate Med Bed treatments and those arriving in ambulances will probably go first for Med Bed treatments.

-Writing Your Humanitarian Projects: There are samples of Business Plan Summaries or Business Plan Proposals online. However, since all business forms will be changing under Constitutional and Common Laws, this is probably why they are not asking that you fill these out.

You only need to submit a few lines (a couple or three paragraphs) or half a page printed out on pretty paper in a see-through binder or folder, and dress like you are going in for a job interview at Redemption Centers. Make sure you have at least 5 extra copies.

Come up with a name for your Med Bed Center and/or Humanitarian Project, then tell how long your project will last (5, 10, 20, 30 years). Then write down the **PROBLEM**, the **SOLUTION**, and why you are the person for the job. Also, include how much money you will need and what the funds will be used for.

Write down an itemized list of what you will be spending the money on. This doesn't need to be concise, so do the best you can. Using the bullet format is a great idea and makes it easier to read. Remember, not everyone has a business sense, but everyone can learn.

Humanitarians Will Receive 'Replicators' and 'Healing Wands'

There will be different size Replicators handed out to Humanitarians. The Replicators will keep down the cost of Med Bed Centers, and Healing Wands will heal you if you experience a sudden injury. For instance, if you go hiking and fall down and break your leg. A Healing Wand could heal you.

Initially, at Humanitarian or Med Bed appointments, Humanitarians will receive a **REPLICATOR** the size of a microwave. **You can't replicate money, jewelry, precious metals, or weapons.** You can replicate eyeglasses, shoes, clothes, bottles of water, pet products, clocks, motor oil, cleaning products, etc.

You will receive an iPad connected to a main computer for online shopping. Everything will be FREE. You can replicate products to give away at shelters and other places. You

can sell bags of chips for $1. These Replicators should be kept locked up, and you can't travel through Customs with them.

Everyone will want these Replicators, but until things calm down and everyone understands where the New Earth is headed, they will only be issued to Humanitarians. If you commit any type of abuse using these Replicators, your online presence will be revoked, and the Replicators will be confiscated.

Med Bed Usage for Med Bed Humanitarians

After Redemption Center appointments and Humanitarians, especially Med Bed Humanitarians, have submitted their paperwork for a Humanitarian Project and have been approved for humanitarian funds, a Military Alliance member should be assigned to you.

All Humanitarians (especially the Med Bed Humanitarians) will have **FIRST PRIORITY** to use the Med Beds along with their dependents (everyone that they are responsible for), including their animals. There will be Med Beds for animals.

We first have to heal the Humanitarians, especially the Med Bed Humanitarians for HUMANS and ANIMALS, so they will have the energy and vitality to heal the entire world. After their Med Bed appointments, unless the Med Beds have been announced to the public, the Military Alliance wants all Humanitarians to sign a 90-day NDA and disappear for 90 days.

During this time, they expect for Humanitarians to move into homes because many of the Humanitarians are homeless – living in hotels, with others, in cars, etc. Humanitarians will initially be provided with Replicators and Healing Wands to keep down the cost of their Med Bed Centers.

Mandatory Med Bed Conference

There will be a **MANDATORY Med Bed conference** for those who are funding the Med Bed centers (not managers, staff, or partners) -- whoever signs for funding. At the conference, you will receive all the details about the Med Bed rooms, info on security, etc. If you don't attend the conference, then you won't receive the Med Bed technology. If you don't understand the Med Bed technology, they won't just give it to you.

What Should Be the Size of Med Bed Rooms?

The rooms for Med Beds need to be quite large. Look at a standard operating room, and it should double that per bed. On the wall, they will install a particular type of material that will power the Med Beds. So, when the Med Bed technology is installed by the Military, they will also install the material on the wall.

Applications for Med Bed Frequency Training

HUMAN Med Bed and ANIMAL Med Bed courses are all the same. When you focus on Med Beds, focus on your **heart frequency** and **Spiritual development**.

Applications will be available ONE MONTH after Med Beds are released to the public. It will be through a specific website on a Quantum computer. You can log on and fill out the application, then press send. When you press send, the Quantum Computer has read your frequency. If the required frequency is 930, and you are at the following – take these steps:

-600 or 700: You will receive an automated message saying -- sorry your application has not been accepted at this time.

-800-850: You will receive an automated message saying your application was not accepted, but here are some classes you may be interested in to assist you in getting up to the required level. Go ahead and take the classes.

-850-920: You will receive an automated message saying, unfortunately, you have not been accepted at this time. However, here are different types of courses you can take, so reapply in 3 months.

-920 is the minimum frequency score: You will receive an invitation for a phone or video interview similar to a Zoom call on that website. If you succeed in that, you will receive another invitation, probably at a training center, where you will meet with several people -- 3 or 4 people, so it will be a formal interview. Then you will receive an invitation to start training, so you will go into your training. How long you train, and the content of your training will totally depend on your level of experience and your knowledge.

Training for Med Bed Staff Members

The new training info for a Med Bed operator or a Med Bed tech as of May 14, 2023, is the training is only for **6 months (not 12 to 18 months as first stated)**, but it also

depends on your current knowledge and how you handle patients. The length of training depends on your knowledge, your knowledge of biology, and all of that.

Start now looking for staff to work at your Med Bed center if you are just renovating a building. People with just a general healing session will probably leave that day or the next and might need barbers, hair stylists, nail techs, replicators, etc. to work with them after their treatments. Some might be ready to leave right after their appointments. It all depends on their procedures.

Initially, it will be important for managers of Med Bed centers to have doctors and nurses there (just like in Hospitals) and hire other experienced people to get their Med Bed Centers up and running quickly.

If a doctor is good in biology, he might only need 2 days of training to learn how to use the Med Bed technology; however, because we are moving into a 5D World, if he doesn't know anything about Spirituality and Consciousness, this training will still be six (6) months. Therefore, understand the world we are headed into. #5DEarth.

Three (3) months will be spent on extensive spiritual training. Two (2) months will be spent living in and working with the Med Beds, which will include spiritual, biology, and how to move and handle patients because you will have patients not walking with spinal issues and on life support, who can't assist you in any way.

Again, it is a 6-month extensive training course. Any more training will be because you don't have a background in health, biology, etc. The same training is applied to the animal healing training, so you will be trained on both – learning to handle Med Beds and Healing Centers for HUMANS and ANIMALS.

The reason you need the spiritual training is that Med Beds have their own consciousness. **No, this is not A.I. It is not evil.** You can connect with the technology telepathically. If you are telepathic and you are operating Med Beds, you can connect to it telepathically, and that will operate the machine. If you ARE NOT spiritually minded in your heart space, then you have to press buttons on a keyboard.

EVERY SINGLE PERSON WILL BE ALLOWED TO USE THE MED BEDS, but only those spiritual and consciously awoke can operate the Med Beds (or be a Med Bed Tech or Med Bed Operator), so for those who are still living in a 3D fear-based world, you won't be able to operate the Med Beds.

However, that is what the 6 months of Spiritual and Consciousness training are for — to take you out of the 'fear-based' world. **This technology holds an insane amount of responsibility.** It is the same responsibility as taking home the codes of a nuclear weapon.

It is very easy for someone who is not in the heart space or doesn't have high spiritual development to abuse or misuse the Med Bed technology. If you want to be healed, you can just jump in the Med Bed and think with your thoughts. That operates the bed.

Therefore, only those who are responsible enough and trained to a high standard will be able to use the Med Beds and operate them. Many will be asking, "What is the standard?" You won't know how close you are to it until you start your training.

I believe you will also be able to go to other countries for the Med Bed training (Med Bed managers and their staff), where the training and travel will be completely FREE. If you are a Manager of a Med Bed center, a Med Bed Tech or Operator, a Spiritual Counselor, a Doctor, etc., you will have to use Med Beds as part of your training.

Bootcamp Training for Med Bed Staff Members and Humanitarians—10-Day Course

The Bootcamp course is for all Humanitarians or anyone who would like to test themselves -- to gain more confidence, gain leadership skills, teamwork, meet new people, and have fun and adventure.

This **10-day cours**e will be in NSW, Australia, and will be free. To register your interest, please email bootcamp.aithusalodge@proton.me

Training for Spiritual Counselors for Med Bed and Healing Centers

Skye Prince also has online **Spiritual Counseling classes** for a fee. The email for her courses is info.Camelot@proton.me. You will be able to sign up for the **FREE Spiritual Counseling classes** with the Military Alliance at Redemption Centers. You will be provided with a private website to register at.

The Spiritual Counseling classes will be ongoing and will start after the Redemption Center appointments. The Spiritual Counselor course is for people who want to become Spiritual Counselors and work in Med Beds and Healing Centers. They might also need to be mobile and go to clients. The training is also REQUIRED for Managers of Med Beds or Healing Centers.

Training for Spiritual Counselors to work in Med Bed and Healing Centers will also be online and in person for at least 6 weeks (in-person training, which will be everywhere) and will be given by the Military Alliance, which might be some planetary and/or multi-dimensional being.

If you can't make the class, or if something comes up, you need to let them know. Spiritual Counselors will need to be in place to work with Med Bed and Healing Centers once they open. Spiritual Counselors will help you get your mind right. It is a full-time course, and it must take priority — even over your current job.

Again, this is not a part-time course. The training should be at least twice a week for 2 hours at a time in many different time zones. It will be important not to miss the training. It won't be something you can just put off and come back to it, even though the classes will remain online. You must take this training seriously and look at it like a job.

Other dimensional beings will know you are putting the classes off, and you might be removed from training. The training will be in many, many countries in many, many languages, and again will be ongoing. Each class depends on you and how long it takes for you to learn the knowledge. Classes will be determined by your level of spiritual mastery. You won't know which class you are in. The class you will start in depends on what you put in your registration packet and what the Military Alliance knows about you.

There will be 5 different classes for the Spiritual Counselors during the training—Class A, Class B, Class C, Class D, and Class E. You need to complete each class to go on to another class. There are no class failures—only repeat it — until you get it and implement it. There are no false #LightWorkers. You will be working with vibrational beings, so there is no faking this. This includes meditation, the mind, body, and soul, etc. It is not just talking to someone about their addictions. You need to be the whole packet.

Those who have completed Class D can work at Med Bed centers and finish up their training there. Class E participants can travel to other realms and will probably be the ones giving the Spiritual Counselor training with the Military Alliance.

Current Counselors are welcome to become Spiritual Counselors, but no matter how long they have worked in their fields, they will still need to be trained in Spirituality and Consciousness and will have to undergo all the classes (Class A, B, C, D, and E).

Therefore, everyone interested in the Spiritual Counseling classes/training to work in Med Bed and Healing Centers—needs to start today studying Spirituality,

consciousness, vibrations, take psychic and mediumship classes, and start doing readings for others. No Non-Disclosure Agreement (NDA) will be required for the Spiritual Counselor training course.

Where Should Med Beds, Healing, and Education Centers Be Opened?

You can start a Med Bed and Education Center together or a Med Bed and Healing Center together or a Healing Center and Education Center or do each separately. You can do each and put them in separate buildings. It is all up to you. Remember the number one goal for your Med Beds and Healing Centers is to have a serene healing environment.

Renovating Buildings: You should look for buildings to renovate and set up Med Beds, Healing Centers, or Education Centers. Make sure the buildings have enough parking. As far as renovating buildings, try not to use places that hold BAD ENERGY such as closed-down hospitals and nursing homes — places where it is obvious that people died.

Buying Land: You can also buy land and have buildings set up on your land, which might take up to two years unless your Military contact can speed things up. But don't forget the Replicators will speed everything up and keep down the costs. You can probably set up a Med Bed or Healing Centers with Replicators in 3 to 4 months instead of 1 or 2 years the traditional way.

Therefore, as soon as humanitarian funds are released, it should be your goal to buy land, get with contractors, and get started. You can build these Med Bed centers or buildings around trees, and creeks and have aquariums and ponds with water flowing on rocks in your Med Bed and Healing Centers' waiting areas. Instead of having a row of seats, you can have benches with sceneries of serene settings.

Security Will Be a Big Issue at Med Bed Centers

In the beginning, after the Med Bed Centers open, your Med Bed Chief Security Officer should be a Marine or ex-Special Forces. Others on his or her staff should be former military workers. Remember, many won't be happy that Med Beds centers are opening. They will put many companies out of business.

Security will be a big issue, especially with Med Bed centers, in the beginning, until they are rolled out to the public, and that is why NDAs are in place. People might be desperate because they have a loved one close to death, so they might raid your Med Bed center and demand that you save them.

Also, look at all the jobs and fields at Big Pharma, hospitals, urgent cares, home healthcare, assisted living, nursing homes, hospices, dentistry, etc. that Med Bed centers will replace, so having a **GOOD SECURITY TEAM** at these Med Bed Centers will be vital.

Just remember that the Military won't release the Med Bed equipment to your Med Bed center if you don't have security in place, and they might want to install their security cameras to assist with security, too, so stay in touch with them while you scout out buildings or while you buy land and have Med Bed centers built.

To use Med Beds, those with appointments will need to wait at Med Bed centers, just like in hospitals. If emergencies come into the Med Bed centers, these emergencies will be seen first. **Again, those with 5% brain function can be saved with Med Beds.**

Will The Vaccinated Get Priority to Use Med Beds?

Children and Seniors were forced to take the COVID vaccinations, and for everyone else, it was #FreeWill -- so you won't be moved up on any list to use Med Beds. You can tell the 800 number (if given one) that you had the vaccination, but again, you won't be moved up on any list.

Just understand that a large percentage of vaccinations were nothing but saline solutions, but bad batches did get in there. However, as a **Holistic Healer** and **Medical Intuitive**, I feel that most people are ill today from eating toxic GMO processed foods, which have no nutritional value.

Med Beds for Animals

If you are interested in starting a Humanitarian Project as an **Animal Med Bed Center** or **Animal Healing Center**, turn in your paperwork at your Redemption Center appointment at the LAST STATION during your Redemption Center appointment.

In a 5D world, it will be illegal to kill animals unless you live off the grid, and that is the only way to sustain your life. There will be many new fruits and vegetables introduced, so there won't be a need to kill and eat animals. All the brutal animal sports and activities, such as dog and horse racing, will go away too.

A dog in Arizona was able to grow its leg back so there will be Med Beds and Healing Centers for dogs, cats, horses, marine life, and even larger animals such as Elephants.

Animal Med Bed and Animal Healing Center staff will be trained along with HUMAN Med Bed Center staff. **Animals will also be able to undergo 'Age Regressions' -- the same as humans**. However, animal **Age Regression** might be put on hold until everyone gets used to the idea.

Med Bed Scams

Because many companies are choosing to call their companies **Med Bed Centers,** many are confused. Once the Med Beds are released to the public, there should be an 800 number or website for you to call to set up your Med Bed appointment, but don't pay attention to any Gmail addresses because they are scammers trying to take your money.

Even the Tesla Med Beds ARE NOT the **FREE Military Med Beds**. Understand you need to ask them if their Med Beds regrow organs, limbs, or do Age Regressions, because ONLY the FREE Military Med Beds can do this. Also, be careful using some of the Med Bed imitators because people are reporting they are experiencing side effects such as loss of 5D consciousness, sleeplessness, etc.

What If You Can't Wait for Med Beds to Heal You?

If you know a person or if you are the person with an illness, injury, or terminal illness, they will have FREE Military Medical Beds (#MedBeds) to treat you. But until they announce the availability of the Med Beds, be ready to deal with hospitals and/or Natural and Holistic Healing businesses.

Every city has Natural and Holistic Health Healers, so these are the people you need to seek out now -- or look for them online. Local organic food growers, health and whole food stores, and food co-ops will know where to find them. They are in every city.

What You Need to Know About Education Centers

If you are interested in setting up an **Education Center** for Med Bed or Healing Centers, for Spiritual Counselor training, and other 5D training, speak with the Military Alliance after your Redemption Center appointment. These training centers can also be located inside your Med Bed or Healing Centers. And some of these Education Centers are already being set up in many cities.

The higher-level Spiritual Counselor students in Classes A, B, C, and D can complete their education in Education Centers. Those who have completed Class D can work at Med Bed centers and finish up their training there. Class E participants can travel to

other realms and will probably be the ones giving the Spiritual Counselor training with the Military Alliance.

Healing Centers will be able to work with those who are suffering from past-life-traumas. If they artificially open your Pineal Gland with a Med Bed, it will cause you to go crazy. You will be able to remember all your past lives at one time, and it will be too much. If you are trying to transition into a 5D World, the Med Beds can help you go from a negative 4D to a positive 4D because it will remove all the toxins, parasites, and other poisons from your body, so of course, you will be able to reach a higher frequency.

Just understand that not everyone can totally stay in the 5D and not come back to the 3D. Eventually, they will be able to stay there, but we aren't there yet. Many will lower their frequency to come back to see their family or others still vibrating in a lower frequency. The goal, however, is to spend a majority of your time, at least 80 to 90% of your time in the 5D.

Telegram Group—Positions Available (Global Humanitarian Projects)

This group was recommended by Skye Prince. Look for positions or new hires on the Telegram group "Positions Available (Global Humanitarian Projects)." This group is a place for Humanitarians creating and developing projects around the world to advertise any positions they have available, and for people looking to connect with Projects to find full-time and voluntary work in Humanitarian Projects.

This group is for all types of projects and programs, not just Med Beds and Healing Centers. They have chosen not to list individual countries or regions, as many projects are in multiple countries, so it is easier to find available positions in all parts of this beautiful world.

For those looking to hire, please include details of the position, region/state, and country, including contact details for those who are interested. For those who are looking to find work, please follow the contact details of the position you are inquiring about, but do not clog up this page with chat or questions.

I really do hope this group assists you in connecting with potential employers and employees for your projects. Just be careful hiring others from other countries. Their goal might be to only have you pay for their family's move into your country, then they suddenly stop showing up for work. Therefore, if you can hire locals in your area or country, especially to get up and running.

Positions You Will Need to Fill for Your Humanitarian Projects, especially Education, Med Bed, and Healing Centers

This whole moving forward into the New Earth won't take place without you. No matter what position you hold. No matter what job you decide to do. You are needed. Everyone is needed – no matter how big or small. Just find your passion. Your health and age mean nothing at all because Med Beds will give you back your health. Therefore, anyone at any age can be involved with their own Humanitarian Project or just work with other Humanitarian Projects.

Whether you are growing foods, providing housing for the homeless, looking out for children without families, especially children that aged out of Foster Care system, cleaning the ocean, etc., you will probably need to hire workers.

Education Centers, Med Beds, and Healing Centers for HUMANS and ANIMALS will also need to hire workers from the following positions. They will need Managers and staff for Education Centers, Managers and staff for Med Bed Centers, and Managers and staff for Healing Centers.

SOUGHT AFTER STAFF FOR MED BED CENTERS: Med Bed Operators/Med Bed Techs, Doctors (General Practitioners, Cardiologists, Cardiothoracic Surgeons, Pulmonologists, Thoracic and vascular Surgeons, Nephrologists, Gastroenterologists, Neurosurgeons, Orthopedic Surgeons, Radiologists, etc.), Nurses and Nurses' Aides, Spiritual Counselors, etc.

SOUGHT AFTER STAFF FOR HEALING CENTERS: Spiritual Counselors, Psychologists, Psychotherapists, Emotional Therapists, Holistic Naturopaths, Homeopathic Professionals, Herbalists, Dietitians, Nutritional Counselors, Osteopaths, Facias-therapists, Reflexologists, Sophrologists, Energy Therapists, Physiotherapists/Physical Therapists, Massage, Reiki and Holistic Therapists, Music and Light Therapists, (Teachers—Yoga, Taichi, Pilates, Meditation, Dance, Singing, Painting, Calligraphy, etc.), Equine Therapy Ethologic Version, Large Swimming Pool Indoors and Outdoors (Pool Staff and Maintenance (Lifeguards, etc.)).

ADMIN POSITIONS: Managers, Department Heads, Financial Counselors, Marketing/Event Coordinators, Accountants/Bookkeepers, Secretaries (computer input, respond to emails, etc.), Receptionists/Greeters for New Patients, Phone Operators/Med Bed Call Center Operators, etc.

OTHER POSITIONS: Boot Camp Workers, Barbers/Hair Stylists, Nail/Make-up Salons, Herbalist and Cannabis Dispensary, Pool Staff and Maintenance (Lifeguards, etc.), Security Officers, Ambulance Drivers, Handicapped Vehicles, Bus Drivers, Airport Drivers/Transport Services, Delivery Drivers, Clothing Shops that Will Sell Clothes Made from High Vibrational Fabrics, Cinema Operators, Gift Shop Workers, Cafe Shop Workers/Fresh Juice Bar Team, Kitchen Staff (Kitchen Helpers, etc.), Housekeeping Staff, Maintenance Staff (electrical, plumbing, etc.), Landscapers/Gardeners (Vegetable Gardens, Flower Gardens, Orchards, Greenhouses, etc.), Veterinarians (Veterinarians Assistants/Emergency Vet Drivers, Handlers (dog, cows, horses, etc.), Pet Sitting Services, Groomers, Educator Behaviorists (canine, feline, equine, etc.), Animal Osteopaths, Equine Podiatrist (and for cows if possible), Equine dentist, Animal Communicators, Stable Hands/Animal Attendants, Hay/Feed Delivery Drivers etc.). Also, Assistant Bird Protection League, Assistant Refuge of Wild Animals, Multigenerational Playgrounds, Campgrounds, Firewood Collectors, etc.

Cathy Harris is a **New Earth Educator, Speaker,** and **Author** at www.CathyHarrisInternational.com, and she offers seminars, workshops, and consultations on Spirituality, The Divine Feminine, Holistic Healing/Gardening, and Cathy is also a Medical Intuitive. She is the author of 32 non-fiction books, including 6 health books and 2 business books, at www.AngelsPress.com. You can email Cathy at AskCathy@DearCathy.com and bring Cathy's **Humanitarian Project,** a **Mobile Education Center,** to your city.
