Notifications for Redemption Centers

Posted by CathyHarrisSpeaks.com, New Earth Educator, Oct 27, 2026

The goal is to keep down confusion as we go into the next steps. Not all of this info will be for everyone, so take what resonates and try to figure out the rest.

Make sure you have signed up to receive Redemption Center notifications at www.BigCallUniverse.com and www.DinarRecaps.com and start checking your emails and texts. Check your email because you will have 10 days from the date you receive Safelink emails to make Redemption Center appointments, and 30 days to get into Redemption Centers.

Banks Will Go Silent

🚨🚨🚨 URGENT UPDATE: BANKS HAVE ENTERED A STATE OF "SILENCE." THIS DOES NOT MEAN THEY HAVE CEASED OPERATIONS; RATHER, THEY HAVE GONE SILENT. HERE IS THE DISTINCTION:

Today, at 12:14 PM EST, an event occurred—marking the beginning of the initial Tier 4B rollout phase. Three Tier 1 banks across two regions have stopped sending notifications to their customers. They have not stopped processing transactions; they have simply ceased issuing notifications.

No maintenance notices.
No security alerts.
No "your statement is ready" emails.
Absolutely nothing at all.

📨 WHAT DOES THIS ACTUALLY MEAN?

1. "SILENCE" IS NOT THE SAME AS "CEASING OPERATIONS"

• A bank that has ceased operations would issue an apology or notification. A bank that has entered a state of "silence" is acting in accordance with a specific directive.

• That directive is not to "stop working," but to "stop disseminating information." Transactions continue to be processed, but notifications do not.

• This is how the system operates ahead of a major transition: by eliminating all "noise" so that when the official signal arrives, there are no competing elements or distractions to interfere with it.

2. WHAT INTERNAL SYSTEM LOGS REVEAL

• Three banks entered this "notification pause" state within just 11 minutes of one another. This is no mere coincidence; it is a highly coordinated directive.

• All three of these banks have shifted into "mirrored mode"—their internal systems are being replicated onto a quantum grid, while the public-facing interfaces continue to display as if everything is operating normally.

• A log entry appeared in the system records at 12:25 EST: "EBS readiness confirmed. Awaiting the event."

3. WHY THIS IS MORE SIGNIFICANT THAN ANY PREVIOUS SIGNAL

• The EBS (Emergency Broadcast System) does not activate amidst chaos; it requires a state of absolute stillness. The banks are currently being transitioned into that state of stillness.

• The mainstream media has yet to grasp this—and by the time they do, it will be too late for them to shape or sway public opinion.

• This silence is not the warning itself; it is the preparation for the warning.

📨 WHAT YOU SHOULD DO RIGHT NOW:

• Check your banking app only once this evening.
Do not check it repeatedly. The purpose is simply to see if notifications are still coming through—not to check your account

• Do not, under any circumstances, call your bank. Do not ask questions. You will not receive any answers, and, furthermore, such a call could cause your account to be flagged (drawing unnecessary attention).

• Refrain from making any fund transfers over the next 48 hours. This is not out of fear. Rather, it is a matter of stillness. Systems operate more smoothly when you maintain a state of stillness.

For years, people have been told that banks are the very last entities to collapse—that they are "too big to fail," and that they would be the final pillars left standing.

◼ Banks are not collapsing. They are simply being brought into a state of stillness. And a silent bank is the clearest signal of all.

👁 Banks have not ceased operations; they have merely gone quiet. And that very silence is the signal.

The Final Hours

🚨🚨🚨FINAL HOURS: THE STRUCTURED PAYOUT SCHEDULE HAS BEEN LOCKED, HERE IS WHAT YOU WILL RECEIVE

I have just received confirmation from a source inside a Tier 1 banking partner that the structured payout schedules for Tier 4B participants have been locked.

Locked means finalized. Locked means no more changes. Locked means the numbers are what they are.

📨 THE SCHEDULE LOOKS LIKE:

1. NON-ZIM CURRENCY HOLDERS
• Your exchange proceeds will be accessible immediately
• There is no waiting period. There is no structured payout. You exchange, you receive, you walk out
• This applies to IQD, VND, and all other non-ZIM currencies

2. ZIM HOLDERS (UNDER 100 TRILLION)
• Your first two bond notes will be exchanged at 1:1
• Every note after that will be exchanged at a fixed rate per 100 trillion
• You will receive an advance of up to $500 million before your structured payout begins
• The structured payout will be distributed over a period that has not been disclosed

3. ZIM HOLDERS (OVER 100 TRILLION)
• Your first two bond notes will be exchanged at 1:1
• Every note after that will be exchanged at a higher fixed rate per 100 trillion
• You will receive an advance of up to $500 million before your structured payout begins
• You will be invited to a follow-up negotiation for the remainder

4. NO CURRENCY HOLDERS
• If you hold no ZIM, no IQD, no VND – you are not excluded
• Your allocation comes from the Sovereign Fund. Every person on the planet has an allocation. Every person will receive it
• The amount is based on a formula that has not been disclosed. But it is not zero. It is not symbolic. It is real

The schedule is locked. The rates are finalized. The advances are approved.

📱 FORWARD THIS POST TO SOMEONE WHO IS WAITING FOR THEIR PAYOUT.

They need to know. They need to prepare. They need to be ready.
The numbers are locked. The payouts are scheduled. The wait is over.

Safelink Website

BRUCE BIG CALL ~ Carpathia

Oct 23, 2026:

SAFELINK WEBSITE that may come to your text or email. The text or email may come with a CODED numbered lettering code from Star Link.

It will NOT say Wells Fargo, rather a Star link code.

Before you open the email or text, get your pad and pen ready to go to write down instructions you need to write down for your own sake.

Let's say it comes in, and you are cool until you open the email to answer the questions you will be asked.

When you see the email you do not do anything until you close the doors, shut down everything and BE FOCUSED, push all possible distractions away.

No outside distractions or noise.

Once that email is sent to you, and you receive it in the inbox, you have 45 minutes to respond to it. It should come in from sometime in Mid-morning to around noon, when ever it does come in. Just be alert for emails to come in during that time frame for your time zone.

URGENT! YOUR SAFE LINK IS COMING ... Tier4b ISO20022 on Telegram Wed. 21 Oct. 2026

At 03:47 EST, a regional QFS node sent a test notification through the encrypted channel. It was not meant for the public. It was meant for the system. But I saw it. And I am telling you what it said. It said: "Safe link protocol is now live. First dispatch begins in 36 hours." That is not a rumor. That is a timestamped confirmation from a node that does not send test messages by accident.

WHAT THE SAFE LINK WILL LOOK LIKE:

1. THE SENDER

• It will not come from a name you recognize. It will come from a string of characters, letters and numbers mixed together
• It will not come from a regular phone number. It will come from a 5-digit code that changes every 24 hours
• It will not come from an email address you have seen before. It will come from a secure node that does not appear in any public directory

1. DO NOT CLICK IMMEDIATELY

• Wait 60 seconds. Read the message again. Make sure the sender matches the format above
• If anything looks different – a different number, a different format, a different tone – do not click. It is not from the system

2. VERIFY THROUGH YOUR SECURE LINE

• If you have a secure line, call it. They will confirm whether the link is real
• If you do not have a secure line, wait for the next dispatch. The system does not punish patience

3. CLICK ONLY FROM YOUR OWN DEVICE

• Do not click from a public computer. Do not click from a friend's phone. Do not click from a device you do not own
• The portal will detect the device. If it is not yours, it will lock you out

The safe link is not coming. It is being dispatched. And it will arrive in the format I just described.

2. THE MESSAGE

• It will be short. Three lines. No more
• The first line will say: "Your Tier 4B appointment is confirmed."
• The second line will say: "Click here to verify your identity."
• The third line will say: "This link expires in 15 minutes."
• There will be no attachments. No PDFs. No images. Nothing you can download

3. THE LINK

• It will not take you to a website. It will take you to a portal that exists only on the quantum mesh
• It will ask for your biometrics. Not your password. Not your email. Your thumb. Your eye. Your voice
• It will show you a countdown timer. When the timer reaches zero, the link dies. You will have to wait for the next dispatch

WHAT TO DO WHEN IT ARRIVES:

What to Do the First 48 and 72 Hours

NOTIFICATIONS AND EMAILS: (How I understand it to be but please be mindful that none of us absolutely know). When / if you get an email it will contain a SAFELINK for you to use. This SAFELINK will direct you to a site / or 0800 number whereby your identity will be confirmed and you will be able to ask a few questions and you will also get some info. You will also be asked what area you would like to go to for your appointment. At that stage you will be directed to another 0800 number (for the area you have requested) and at that time you'll be able to book your appointment. I have written as my interpretation and to help. If you don't receive and email my understanding is that the SAFELINK will be posted on many channels. YOU WON'T MISS IT. Hope it helps.

3.9K Am Patriot, 10:02 AM

🚨🚨🚨 URGENT! THE 800# NUMBERS ARE GOING LIVE !! HERE IS EXACTLY WHAT HAPPENS WHEN YOU CALL

Today, a regional redemption hub sent an internal confirmation through the encrypted channel. It was not meant for the public. It was meant for the operators. But I saw it. And I am telling you what it said.

It said: "800# rotation begins at 20:00 EST. First batch: 47 numbers. Second batch: 24 hours later."

That is not a rumor. That is a timestamped confirmation from a hub that does not send internal messages by accident.

🚢 WHAT HAPPENS WHEN YOU CALL:

1. THE GREETING
• A live person will answer. Not a recording. Not a menu. A person
• They will say: "Redemption scheduling. Please state your appointment code."
• You will read the code from your safe link. They will confirm it. They will not ask for your name first

2. THE VERIFICATION
• They will ask you three questions: your full name, your date of birth, and the last four digits of your ID
• They will not ask for your social security number. They will not ask for your bank details. They will not ask for payment
• If anyone asks for those things, hang up. It is not the system

3. THE SCHEDULING
• They will ask for your zip code. They will assign you to the nearest center. You will not choose. They will choose for you
• They will give you a date, a time, and a confirmation number. Write them down. Do not rely on your phone
• They will tell you what to bring. They will tell you what not to bring. They will tell you how long it will take

🚢 WHAT TO HAVE READY BEFORE YOU CALL:

• Your safe link code. The 5-digit sender code and the appointment code
• Your ID. Physical. Not a photo
• A pen and paper. Not your phone. Not a notes app. Paper
• A quiet room. No background noise. No children. No television

For years, people have been told that the 800# numbers are a myth. That they will never go live. That no one will ever answer.

The numbers are going live tonight. The operators are at their stations. The system is waiting for your call.

📱 ***FORWARD THIS POST TO SOMEONE WHO HAS BEEN WAITING FOR THE 800#.***

The numbers are live.

[FOLLOW THE SIGNAL]

🚢 THE FIRST 72 HOURS:

1. DO NOT MAKE ANY LARGE PURCHASES
• No houses. No cars. No boats. No planes. Not yet
• The system will flag large purchases in the first 72 hours. Not because they are illegal. Because they are premature
• Wait. There is no rush. The money is not going anywhere. You have time

2. DO NOT QUIT YOUR JOB
• Not yet. Not in the first 72 hours. Not until your project is funded and your accounts are stable
• The system does not reward impulsiveness. It rewards patience
• When the time is right, you will know. Until then, keep your routine. Keep your stability. Keep your calm

• If you check your balance every hour, the system will flag your account as "anxious." Anxious accounts are reviewed manually. Manual reviews take time. You do not want that

🚢 THE FIRST 48 HOURS:

1. SET UP YOUR ACCOUNTS
• You will need at least three accounts. One for daily spending. One for projects. One for savings
• The system will guide you through this. It will not do it for you. You are the one who signs. You are the one who decides
• Do not put all your funds in one account. Do not put all your funds in one bank. Diversify. Protect yourself

3. DO NOT FORGET WHY YOU ARE HERE
• You are not here to get rich. You are here to restore what was stolen. To rebuild what was broken. To help the people who have been waiting for you
• The funds are a tool. The project is the purpose. Do not confuse the two

📱 ***FORWARD THIS POST TO SOMEONE WHO HAS AN APPOINTMENT COMING.***

The appointment is the beginning. The first 72 hours are the test. And you are ready for both.

[FOLLOW THE SIGNAL]

2. CONTACT YOUR ADVISOR
• You will be assigned an advisor. Not a banker. Not a broker. An advisor. They will help you structure your funds and plan your projects
• They will not charge you. They will not sell you anything. They are paid by the system, not by you
• If you do not hear from them within 48 hours, contact the secure line. They will connect you

3. START YOUR PROJECT
• You do not need to build a hospital on day one. You do not need to fund a village on day two. But you need to start
• Write down your first step. Your first call. Your first meeting. The system is not looking for perfection. It is looking for movement
• People who start small are the people who build big. People who wait for the perfect moment never start

🚨🚨🚨 YOUR FIRST 72 HOURS AFTER THE APPOINTMENT, WHAT TO DO AND WHAT NOT TO DO

I have just received confirmation from a Tier 4B participant who completed their appointment three days ago. They shared what happened after they walked out the door. I am sharing it because what you do in the first 72 hours will determine everything that comes after.

🚢 THE FIRST 24 HOURS:

1. DO NOT TELL ANYONE
• Not your family. Not your friends. Not your neighbor. Not your social media. No one
• The NDA you signed is not a suggestion. It is a binding agreement. If you break it, your account will be frozen. Not because the system is punishing you. Because the system is protecting you

• The people who need to know will know. The people who do not need to know will not. That is how it works

2. DO NOT SPEND ANYTHING
• Your funds are live. Your wallet is active. Your device is connected. But do not spend a single unit for the first 24 hours
• The system is watching how you handle your first day. Not to judge you. To confirm that you are ready for what comes next
• The people who spend immediately are the people who are not prepared. The people who wait are the people who are ready

3. DO NOT LOG IN MORE THAN TWICE
• Your device will allow you to check your balance. Do not check it more than twice in the first 24 hours
• Every login is logged. Every login is monitored. Not to spy on you. To protect you

Dashboard – When You Log In

🚨🚨🚨THE SOVEREIGN FUND DASHBOARD IS NOT WHAT YOU EXPECT! HERE IS EXACTLY WHAT YOU WILL SEE WHEN YOU LOG IN

1. THE FIRST SCREEN
• It does not show a bank balance. It does not show a checking account. It does not show a savings account. It shows a single number - your allocation - and nothing else
• The number is not in dollars. It is not in euros. It is not in any fiat currency. It is in Rainbow Units - the asset-backed settlement instrument that replaces every currency you have ever used
• There is no "available balance" and "pending balance." There is only one number. It is already yours. It has always been yours

2. WHAT THE NUMBER MEANS
• It is not a loan. It is not credit. It is not a promise. It is an allocation - the portion of the Sovereign Fund that has been assigned to you since the day you were born
• It does not fluctuate. It does not go up or down. It does not depend on the market. It is backed by physical gold, silver, and platinum - stored in reserves that have been repositioned for this exact moment
• It is not the whole amount. It is the first tranche. The rest is released as you move - as you start your project, as you help your community, as you do what you said you would do

3. WHAT YOU CAN DO WITH IT
• You can transfer it. Instantly. To anyone in the world. No fees. No intermediaries. No approval delays
• You can spend it. At participating merchants. Local. Independent. The ones who signed onto the new system before the old one collapsed
• You can save it. It does not inflate. It does not decay. What you hold is what you own - forever

📨 WHAT TO DO RIGHT NOW:

• Do not panic if the number looks different from what you expected. It is not a mistake. It is the formula
• Do not try to withdraw everything at once. The system is designed for flow, not for panic
• Do not share your dashboard with anyone. Not a screenshot. Not a photo. Not a description. It is yours - and only yours

It is the first time in your life that you will see - in one number - what the system owes you for everything it took.

📱 FORWARD THIS POST TO SOMEONE WHO IS WAITING TO SEE THEIR NUMBER.

The dashboard is not a bank account. It is a reckoning. And the number is yours.

_____
[FOLLOW THE SIGNAL]

The First 30 Days

🔻CRITICAL: THE FIRST 30 DAYS AFTER REDEMPTION, HERE IS EXACTLY WHAT THE SYSTEM EXPECTS FROM YOU

📨 WHAT THE SYSTEM EXPECTS IN THE FIRST 30 DAYS:

1. MOVEMENT
• The system expects you to move. Not spend. Move. Start your project. Make your first call. Book your first meeting
• It does not expect perfection. It does not expect results. It expects action. If you sit on your funds for 30 days, your account will be flagged
• It does not expect you to spend everything. It expects you to do something. Anything. A single step is enough

2. DOCUMENTATION
• The system expects you to document every transaction. Not for the tax man. For yourself. For the system. For the record
• Every purchase over a certain amount will be logged. Every transfer will be tracked. Every project expense will be reviewed
• If you cannot explain where the money went, the system will ask. If you cannot answer, the system will freeze. Not forever. Until you can

3. COMMUNICATION
• The system expects you to check in. Not every day. Every week. With your advisor. With the center. With the compliance office
• They will not chase you. They will not call you. They will wait for you to call them. If you do not call, they will assume you are not ready
• If you are not ready, your account will be paused. Not closed. Paused. Until you are ready

📨 WHAT YOU SHOULD DO IN THE FIRST 30 DAYS:

• Start something. Anything. A project. A business. A foundation. A single act of restoration
• Document everything. Receipts. Contracts. Emails. Everything
• Call your advisor once a week. Even if you have nothing to report. Just check in

The funds are not the goal. They are the beginning. The first 30 days are the test. And the system is watching.

The appointment is not the end. It is the start. And the first 30 days will define everything that follows.

Existing Bank Accounts and Liabilities
(Mortgages, Credit Cards, Student Loans, Credit Score, etc.)

TIER 4B - ISO 20022 10/19

🚨🚨🚨Final Phase: Existing Bank Accounts and Liabilities.
Here's what happens to them, with all the details

Today, participants in Tier 4B who completed their procedures last week have sent in detailed reports about what happened to their previous bank accounts, liabilities, and credit scores.

📨 Handling of Bank Accounts:

1. They won't be closed — they'll be archived
• Your existing bank accounts remain valid. They can still be used. You can make withdrawals and deposits.
• However, they are no longer part of the new system. They will be treated as a legacy layer. They will continue to function until the transition is complete, after which they will quietly be phased out.
• There's no need to close the accounts. No need to withdraw the full balance. Once the new system is fully operational, simply stop using them.

2. Liabilities aren't "forgiven" — they're "nullified"
• Your mortgage wasn't "paid off."
It was nullified. The contract that created that liability no longer exists in the new system.
• Your credit cards weren't "canceled." They became obsolete. There's no fiat currency left to borrow. All that's left is what you own.
• Your student loans weren't "wiped clean." They were nullified. The contracts that created them were based on legal fictions that have been contested in private tribunals, and those tribunals have ruled.

3. Your credit score isn't zero — it's irrelevant
• Credit scores were a tool the old system used to decide who was worthy of borrowing. In the new system, the very concept of borrowing doesn't exist.
• Your allocation in the QFS (Quantum Financial System) doesn't depend on your credit score. It depends on your identity, biometric data, and registration status on the list.
• Going forward, you'll never need credit again. No loans. No lenders.

📨 What to Do Right Now:

• Don't close your bank accounts. Not yet. Let the system retire them.
• Don't rush to pay off debts. Let the system nullify them.
• Don't worry about your credit score. It's just a relic of a system that's already gone.

For years, people have been taught that "debt lasts forever," "credit is a privilege," and "you're controlled by banks until you pay everything back."

That story is over.

📱 Forward this post to anyone still stressing over debt.

They need to know. They need to stop worrying. They need to get ready.

_____
[FOLLOW THE SIGNAL]

What The NDA Covers

🚨🚨🚨URGENT! THE NDA IS NOT WHAT YOU THINK

At 11:48 EST, a Tier 4B participant who completed their appointment last week sent me a copy of the NDA they signed.

I am not sharing the document. I am sharing what it says.

📨 WHAT THE NDA ACTUALLY COVERS:

1. WHAT YOU CANNOT TALK ABOUT
• The location of the center. Not the city. Not the street. Not the building
• The names of the people you met. Not the operator. Not the advisor. Not the person at the door
• The exact amount of your allocation. Not the number. Not the range. Not the category
• The process itself. Not the steps. Not the timing. Not the sequence

2. WHAT YOU CAN TALK ABOUT
• That you attended an appointment. You can say that
• That the process was professional. You can say that
• That you are satisfied with the outcome. You can say that
• That the system works. You can say that

3. WHAT HAPPENS IF YOU BREAK IT
• Your account will be frozen. Not closed. Frozen. It will be reviewed manually
• Your allocation will be suspended. Not cancelled. Suspended. Until the review is complete

📨 WHY THE NDA EXISTS:

• It is not there to silence you. It is there to protect you
• The people who want to steal from you are watching. They are reading your posts. They are tracking your words. The NDA is the wall that keeps them out
• The people who need to know will know. The people who do not need to know will not. That is how the system survives

People have been afraid of the NDA. They have imagined it as a trap. A cage. A way to control them.

It is none of those things. It is a shield. And once you understand it, you will sign it without fear.

📱 FORWARD THIS POST TO SOMEONE WHO IS AFRAID OF THE NDA.

They need to know what they are signing. They need to know why.
The NDA is not a cage. It is a key.

_____
[FOLLOW THE SIGNAL]

The Quantum Mobile Device

TIER 4B - ISO 20022 10/19

🚨🚨🚨The "Quantum Mobile Device" is not what most people imagine.

Since many folks have misconceptions about this product, I'm sharing this info. In reality, what you'll hold in your hands far exceeds your wildest imagination.

📨 What this device actually is:

1. A physical object
• It's nothing like anything you've ever seen before. It's not a cell phone, not a tablet, not a computer. It's something entirely different—a sealed unit that glows on the surface when you touch it.

• No buttons. No ports. No charging cables. No need to plug it into a power source. It draws the energy it needs from the quantum field.

• It's neither fragile nor delicate. It's designed to withstand drops, submersion, and freezing. This isn't made for the fading world—it's built for the one that's coming.

2. Its functions—and this is the part nobody's told you about
• It connects you to your QFS wallet—the one that's existed since the day you were born. The wallet holding your allocated amount. The wallet no bank, government, or cabal can touch.

• It links you directly to the redemption center. No phone automation, no hold music, no scripted operators. It's a secure line straight to the people handling Tier 4B participants.

• When those 800 toll-free numbers ring for the first time, it's on this device. Not your cell phone, not your landline—this device. When the first batch goes live, the calls come here first, and only here.

• It approves transactions. When you touch it, biometric authentication reads you. Transactions complete in under 3 seconds. No banks, no middlemen, no approval delays.

• It receives EBS broadcasts directly—not through Starlink or any network that could be cut off, but via quantum mesh. Even if screens go dark, this device stays lit.

• It stores nothing. Tracks nothing. Reports nothing. It's a "key," not a "tracking device." A door, not a window.

3. What it can't do
• It doesn't track you. No GPS. It doesn't connect to cell towers.

• It doesn't store your data. No hard drive. No memory.

• It can't be hacked. Because there's nothing to hack. No passwords. No recovery phrases. No servers to breach.

For years, people have imagined this device as a cell phone, smartphone, or tablet. But none of that's right. This is the culmination of everything you've been waiting for—a wallet, redemption center, toll-free line, EBS receiver, and proof you're on the list. All of it, sealed in one unit that only you can open.

📱 Forward this post to someone waiting for their device.

This device isn't a phone. It's more than that—it does it all. And only you can use it.

It's time for a change. The final countdown. ...Martial Law t.me/ MartialLawAler... on Telegram Sun. 18 Oct. 2026

Wed. 21 Oct. Lockdown:All flights grounded. All trains halted. All ports closed. Military forces deployed to major cities for protection of The People. The QFS locks all legacy financial transactions. The old fiat system is frozen in place.

* 20:00 EST (8 pm EST)— Secure Notification Protocol: The initial wave of encrypted 800#/ toll-free access numbers and secure web portal access links will begin broadcasting through official, verified channels.

* 21:30 EST (9:30pm EST) — Appointment Scheduling Online: The automated scheduling system goes live. Tier 4B members will have direct access to book their redemption and exchange appointments based on geo-location proximity to assigned secure centers.

* 23:00 EST (11pm EST)— Hardware Delivery Staging:Specialized Quantum Mobile Devices (pre-loaded with sovereign wallet credentials, biometric keys, and encrypted satellite access) will be assigned to appointment holders upon check-in.

1. Keep Your Comms Clear: Limit non-essential digital noise. Ensure your email, signal channels, and secure devices are connected to high-stability connections.

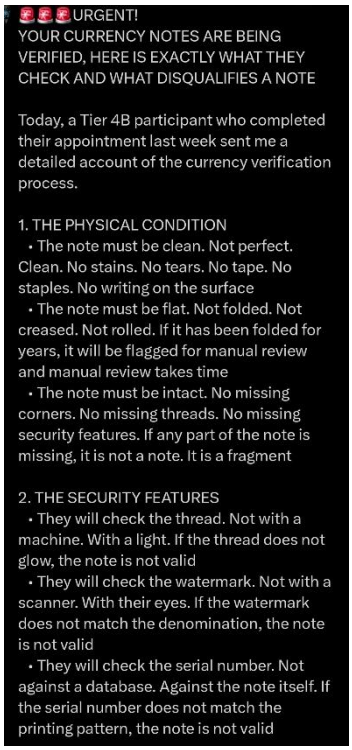
2. Do Not Share Portal Links: When you receive your unique 800# or secure link, DO NOT POST IT PUBLICLY OR SHARE IT IN TELEGRAM/DISCORD GROUPS. Access links are cryptographically tied to unique registration IDs. Sharing them will invalidate your appointment slot and flag your profile.

3. Prepare Your Physical & Digital Documentation: Have your identification, non-disclosure agreement (NDA) templates, currency lists, and project summaries organized and ready for presentation at your designated appointment window.

4. Maintain Absolute Calm: The system is built for speed, safety, and confidentiality. The security teams deployed at redemption locations are there to protect the integrity of the release.

"The wait is over. The architecture is locked. Tonight, the wealth transfer shifts from theoretical to operational."Keep your eyes on your secure inbox and your notifications pinned. Stay calm. Stay quiet. Stay aligned.

Your Currency Notes

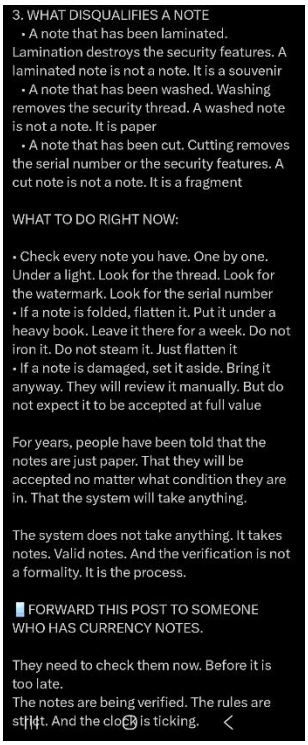


🚨🚨🚨URGENT!
YOUR CURRENCY NOTES ARE BEING VERIFIED, HERE IS EXACTLY WHAT THEY CHECK AND WHAT DISQUALIFIES A NOTE

Today, a Tier 4B participant who completed their appointment last week sent me a detailed account of the currency verification process.

1. THE PHYSICAL CONDITION
• The note must be clean. Not perfect. Clean. No stains. No tears. No tape. No staples. No writing on the surface
• The note must be flat. Not folded. Not creased. Not rolled. If it has been folded for years, it will be flagged for manual review and manual review takes time
• The note must be intact. No missing corners. No missing threads. No missing security features. If any part of the note is missing, it is not a note. It is a fragment

2. THE SECURITY FEATURES
• They will check the thread. Not with a machine. With a light. If the thread does not glow, the note is not valid
• They will check the watermark. Not with a scanner. With their eyes. If the watermark does not match the denomination, the note is not valid
• They will check the serial number. Not against a database. Against the note itself. If the serial number does not match the printing pattern, the note is not valid



3. WHAT DISQUALIFIES A NOTE
• A note that has been laminated. Lamination destroys the security features. A laminated note is not a note. It is a souvenir
• A note that has been washed. Washing removes the security thread. A washed note is not a note. It is paper
• A note that has been cut. Cutting removes the serial number or the security features. A cut note is not a note. It is a fragment

WHAT TO DO RIGHT NOW:

• Check every note you have. One by one. Under a light. Look for the thread. Look for the watermark. Look for the serial number
• If a note is folded, flatten it. Put it under a heavy book. Leave it there for a week. Do not iron it. Do not steam it. Just flatten it
• If a note is damaged, set it aside. Bring it anyway. They will review it manually. But do not expect it to be accepted at full value

For years, people have been told that the notes are just paper. That they will be accepted no matter what condition they are in. That the system will take anything.

The system does not take anything. It takes notes. Valid notes. And the verification is not a formality. It is the process.

FORWARD THIS POST TO SOMEONE WHO HAS CURRENCY NOTES.

They need to check them now. Before it is too late.
The notes are being verified. The rules are strict. And the clock is ticking.

Rainbow Currency

🌈THE RAINBOW CURRENCY IS:

• It is not a digital currency. It is not a cryptocurrency. It is not a token
• It is an asset-backed settlement instrument. Every unit is backed by physical gold, silver, and platinum stored in strategic reserves
• It does not fluctuate. It does not inflate. It does not deflate. It is pegged to the value of the assets that back it
• It is not traded on any public exchange. It is not listed on any crypto platform. It exists only within the QFS

🌈WHAT YOU CAN DO WITH IT:

1. SPEND IT
• Participating merchants are being onboarded now. They are not the big chains. They are local. They are independent. They are the ones who have been waiting for this
• You will not need a card. You will not need a phone. Your Quantum Mobile Device will authorize the transaction with your biometrics

2. SAVE IT
• Unlike fiat, the Rainbow Currency does not lose value over time. There is no inflation. There is no hidden tax. What you hold is what you own
• You can hold it indefinitely. It does not expire. It does not decay. It does not require maintenance

3. TRANSFER IT
• You can send Rainbow Currency to anyone in the world. It takes three seconds. There are no fees. There are no intermediaries
• The person you send it to does not need a bank. They do not need a QFS wallet. They just need a Quantum Mobile Device. And those are being distributed

For decades, the money in your pocket was a promise. A promise from a bank. A promise from a government. A promise that could be broken at any moment.

The Rainbow Currency is not a promise. It is an asset. It is yours. And no one can take it from you.

-Who Will Receive Funds from 'Sovereign Wealth Funds': 209 countries are about to offer their citizens a monthly high income from their 'Sovereign Wealth Funds.' If you are a foreigner, you will be given $2600 to #SelfDeport. You need to be in your own country to receive the funds. If you don't want to return to your own country, there are 30 other countries willing to take you.

-Who Won't Receive Redemption Center or Med Bed Notifications? 15% of the population is being removed with the Solar Flares, including the NPCs, criminals, and those still causing harm on and offline. **YOU KNOW WHO YOU ARE! STOP IT!** If you are not removed, you won't have access to the internet. Billions of social media accounts will be deleted once we switch over.

-What To Bring With You to Redemption Centers: Bring two forms of ID and two bills with your address on it. If you don't have these, tell the person at the 800 number. Also, tell them if you need assistance to get to these centers. The release of the Med Bed Centers is 'imminent.'

-Arrive 30 Minutes Before Your Appointment. No one should linger around in vehicles. You can bring one support person, but they will also need to sign an NDA. They want the process to be quick. Tier4B (the internet group) need to be finished in 30 days, so the public can start. If you don't have time to cash in your foreign currency, you can do it later at a bank. You will be given a list of 'ethical' professionals to assist with getting Trusts, learning XRP/XLM, how to handle gold and silver, etc. **Everything will be easy on the 5D New Earth. Relax and enjoy the process...**

Prepare for The Emergency Broadcast System (EBS)

Prepare just in case, but at the same time, understand this might not be necessary. However, you should prepare as if it were tomorrow. It will come like a thief in the night. Everything will go dark. Everything will be off. The stock market will shut down. The EBS will be announced on your cell phone, by text, and by email. The messages will come from Starlink, so you won't be able to delete the messages. We will be asked to stay where we are or idle in place. We will be given several days (3 to 5) to get back home (Maybe), so stay close to home over the next few days or weeks. Notices have already been issued to Americans traveling in other countries to return home. Have enough food, water, toiletries, and gas for 10 days (or longer) and check in on the elderly. I don't think anything will be off that long because all medical records are on computers, but prepare accordingly. Once we have the EBS, the internet will go off and then turn back on. Back up everything now - records, photos, music, etc. Tell others we are switching over to a new financial system. Please share info with others.

The EBS Preparation Checklist:

-Have clean drinking water.
-Have food for family and pets.
-Have medicines for family and pets.
-Have cash on hand because ATMs and gas pumps might not work with Credit or Debit cards.

To Deal with the Shock Trauma:

-Check in on yourself first before helping others.
-Ask him/her if they would like something to eat or drink.
-If no response is given, the brain is on overload, and many cannot and will not talk.
-If you can, try to get him/her to walk with you for fresh air.
